

CONVERSATION MEMORANDUM

TO: Water Right File No. **72-16772**

FROM: Darla Block

DATE: August 16, 2013

SUBJECT: Lapse Notice & Permit Holder's Inquiry Received August 14, 2013

On May 31, 2013, the Department mailed a Proof Due Notice by certified mail to the address of record with the Department for permit holders (Travis and Brenda Bullock).

On August 07, 2013, the Department mailed a Lapse by certified mail to the address of record with the Department for permit holders (Travis and Brenda Bullock).

On August 14, 2013, the Department received a letter from Brenda Bullock stating that she thought their time for completing the work on their water permit no. 72-16699 had been extended to October 1, 2017. She was confused by the Lapse Notice she received regarding their other permit No. 72-16772. Her letter stated that she was confused on why they have two different permit numbers.

On August 16, 2013, I called and spoke with Brenda Bullock. I explained the differences between the two permits, and by the end of our conversation she understood that she needs to file either the Request for Extension of Time form or the Statement of Completion form for permit no. 72-16772 that lapsed.
