Dear Mr. MILLER;

Thank you for the advice you gave me on how to retain my water rights.

As you suggested, I would like to apply for a change of point of diversion to my domestic well. Please send me the forms to make that change.

Also, I would like to put most of my rights/shares into the district water bank, so as I do not incur any future forfeiture of my water rights. Please send me the forms for that, too.

I would appreciate any advice you can give me on how to fill out these forms. As I mentioned, I have 18 acres, & would possibly only water/irrigate 1-2 acres max. What I'm really interested in maintaining my water rights, as it increases my land value. What is your suggestion for the amount of water rights I keep for myself in order to irrigate 2 acres max?, with the balance going into the water bank.

I look forward to receiving the forms, so I can start the process. If necessary, can you extend my September 1st deadline, since I have to change the point of diversion, & place a portion of my rights into the water bank.

Thank you,  
Deena Jorgensen
