REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Permit no. 63-12097 Date proof is due August 1, 2013

Name(s) of permit holder(s) Wilson Properties LP

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

Well drilled to 285 feet in 2009 by Phipps Drilling. However, well only produced 250 gpm with draw down of 210 feet, which is far less productive than anticipated. We have retained SPF Engineers to recommend options (deepening well, drilling additional well or potential acquisition of existing well) to bring production up to permitted rate and have postponed expenditures for extending power and installing pump until a feasible option can be confirmed.

Costing \$ 61550 to date

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Further engineering work will be necessary to identify means to bring diversion rate up to requested level.

Permit holder(s) request an extension for 5 year(s).
