DATE: July 11, 2013
RE: Amended Approval of Permits 63-33715 & 63-33745

This note is offered to help avoid unnecessary research.

Both permits were approved with minor typos and subsequently corrected.

Through some miscommunication, the "Amendment of Permit" document was used instead of the expected "Amended Permit" approval.

The result is the same so no harm done. This is not worth issuing yet another amended approval to basically change the heading on the document.

Therefore, please **do not spend any time searching for an Application for Amendment of Permit prior to July 11, 2013** since that is N/A in these cases.
