RE: Permit No. 96-9430

Dear Permit Holder(s):

The Department received your Request for Extension of Time on June 4, 2013, requesting an extension for three years in order to complete the project and put the water to beneficial use.

While reviewing your extension request, I noticed that the form submitted was not signed or dated. I am returning your original extension request, and ask that you sign the form then return it to me within **15 days** from the date of this letter. Upon receipt of the signed form the Department will be able to process your extension request.

In addition, you are allowed an initial (5) year development period according to Idaho code, and one extension request after that for up to (5) more years. Your permit allowed a four year development period. Since you are allowed an initial five year development period it would be to your advantage to request a one year extension now to meet with the initial five years allowed. Then you would be able to file one more extension request for up to five more years after that if needed.

If you decide to leave your extension request as a (3) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

If you have any questions, please feel free to contact me at 208-287-4945.

Sincerely,

A handwritten signature in black ink that reads "Darla Block".

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

Tail Works are finished. Power house is finished, including concrete, insulation, sheet rock, & wiring, turbine is built, set, sealed, & plumbed, new generator is set & wired to panel. Penstock road is built, "french" drained 3 springs, culverted 2 creeks, built coffer dam, head works are built & installed, buried 200' pipe & gravel. Built garage for monitoring, governor, distribution panels, & grid tie equip., now wiring at garage & house. Project in final stages. Giving tours, IASCD & others.

Costing \$ 10,400

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

1. MONEY- original permit was given while I was in business, w/ little free time, I had hoped to hire it done. Health & plans changed, sold business, retired, developed home site, w/ manuf. house, & moved to site. Then had time but not \$\$ 4 help.
2. EROSION limited work to DRY summers for penstock road, 3 french drains, 2 culverts, coffer dam, head-works, & pipe.
3. HEALTH, have had 4 years increasing heart valve leakage, = low energy. May need oper., 1 yr. in request for this poss.

Permit holder(s) request an extension for 3 year(s).
