

Memorandum

Date: August 1, 2013

To: File 63-4068

From: Craig L. Saxton 

Re: Location of Point of Diversion

Richard Eddins is the water right holder of 63-8960 which authorized diversion of water from Charlotte Gulch Creek for mining and domestic use. Mr. Eddins contacted me to inquire about other water rights diverted from Charlotte Creek. After looking over the Department's records, Mr. Eddins, who is familiar with the diversions on Charlotte Creek, submitted a map showing the location of the point of diversion for water right 63-4068.

The map submitted shows the POD location in the NWNW of section 23. Yet the partial decree for 63-4068 places the POD in the NESWNW of section 23. The water right holder for 63-4068 will need to file a transfer to move the point of diversion, but I have attached the map submitted by Mr. Eddins to the file for future reference.

Diversion Point Info.

Thank you for your help.

Idaho Department of Water Resources

Water Right
63-4068
(DOMESTIC)

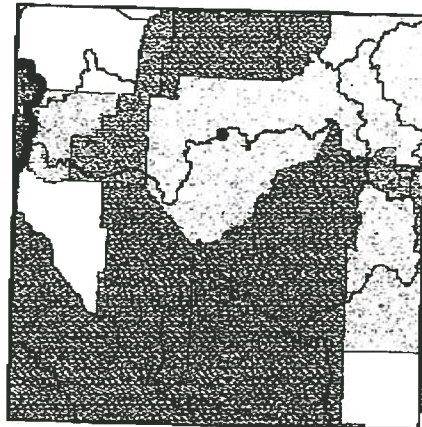

○ Point of Diversion

Place of Use

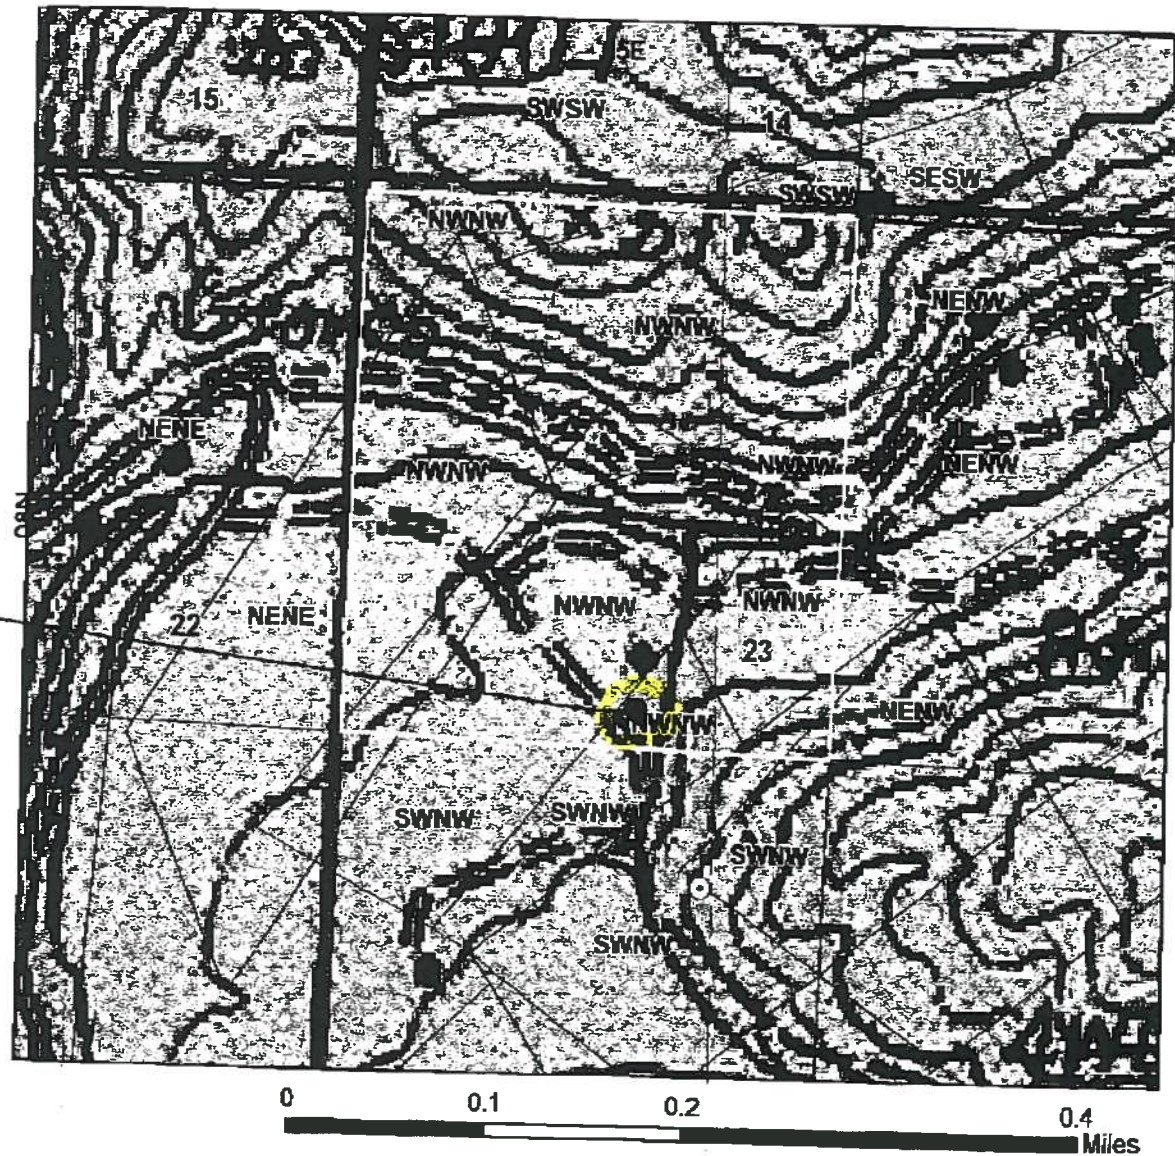

- State Outline
- Townships
- PLS Sections
- Quarter Quarters

63-4068

NWNW

Boise County
IDWR Basin 63

The Place of Use (POU) and Point of Diversion (POD) locations shown on the map do not represent an actual determination of the true POD location. The true, exact, location of the POD and POU for 63-4068 is unknown. The identified POD and POU on the map are place holders consistent with the legal description on the partial decree.
