Dear Permit Holder:

Re: Permit No. 95-9401

One of the conditions of approval of the above referenced water permit is that proof of the extent of your beneficial use must be submitted to this office on or **before November 01, 2013**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either a license examination fee of \$50.00 which is based on the maximum diversion volume listed on your permit, or a field examination report prepared by a certified water right examiner.

An acceptable proof statement must be received by this department on or before the above proof due date. Attached to this email is a Statement of Completion form for submitting proof of beneficial use, along with the instructions and fee schedule. I have also attached a copy of your permit which might assist you in completing the proof form.

Sincerely,

Dear Darla,

I have completed the ponds and they are now full to their capacity. Everything is operational, so how do I complete the permitting? Thanks! Jim McNamara

December 04, 2012

Re: Extension Request Filed for Permit No. 95-9401

Dear Permit Holder(s):

The Department is in receipt of your extension request filed on October 23, 2012, for which you have requested a (1) year extension of time for submitting proof of beneficial use for the above referenced permit. Your permit allowed the

initial (5) year development period. After the initial (5) year development period, you are only allowed to file one request for extension of time for up to (5) more years.

You could ask for your extension request to be modified to reflect more time up to (5) years, if you find it necessary. In order for me to make any changes to your form, I would need a written response from you requesting that your extension request form be modified to reflect a later end date.

If you decide to leave your extension request as a (1) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

Please reply and respond with the extension end date you would prefer. Either to keep this extension as a (1) year extension, or to change this extension to add additional time.

Sincerely,

Darla Block
