Re: Application to Rent Water (Basin 02).

Dear Nick:

Simplot holds two water rights that could be curtailed in the event the flow of the Snake River falls below the minimum instream flow for Basin 2. These two water rights are 2-7396 and 2-7399. Simplot also has Basin 2 water rights that are leased to the water supply bank, which are superior in priority to the minimum instream flow; water right nos. 2-10471, 2-10472, 2-10300A and 2-10300B.

As a precautionary measure, the enclosed application seeks your approval to lease a portion of 2-10471, 2-10472, 2-10300A or 2-10300B to substitute for the diversions under 2-7396 and 2-7399 in the event 2-7396 and 2-7399 are curtailed due regulation of the Snake River in Basin 2 to meet the minimum stream flow.

Please contact me should you have any questions about the enclosed application.

Sincerely,

Vic Conrad
