PROOF ACKNOWLEDGEMENT LETTER

RE: Permit Nos. 91-7335 & 91-7337

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. During my review of your proof statements and water right permits, I found that condition no. 6 of these permits may not have been complied with.

Condition no. 6 of these permits states:

"A fish screen of 0.25 inch or smaller mesh shall be installed and maintained at the point of diversion"

If this condition has not been met, I recommend this condition be complied with. The next step in the process of developing water rights is for the Department to conduct the field examinations to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examinations, please contact the Northern Regional Office of the Department in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist
