Subject: pod

Hello, I took a gps point for the file I gave you: P:\SThiel\Jean. The spring is on Jason Roylance's property and several people use it for their domestic water rights. The current location of the pod appears to be a nominal and should probably be moved. I did a field exam for 75-7524 from the same spring that I have yet to license. 75-13315 is also an overlap. I think that 75-10945 and 75-10435 are also overlaps.

Memorandum

Date: January 18, 2013

To: File 75-7653

From: Craig L. Saxton

RE: Field Exam Required

After reviewing the file and Jean Hersley's memo, a field exam is necessary to definitively locate the point of diversion.

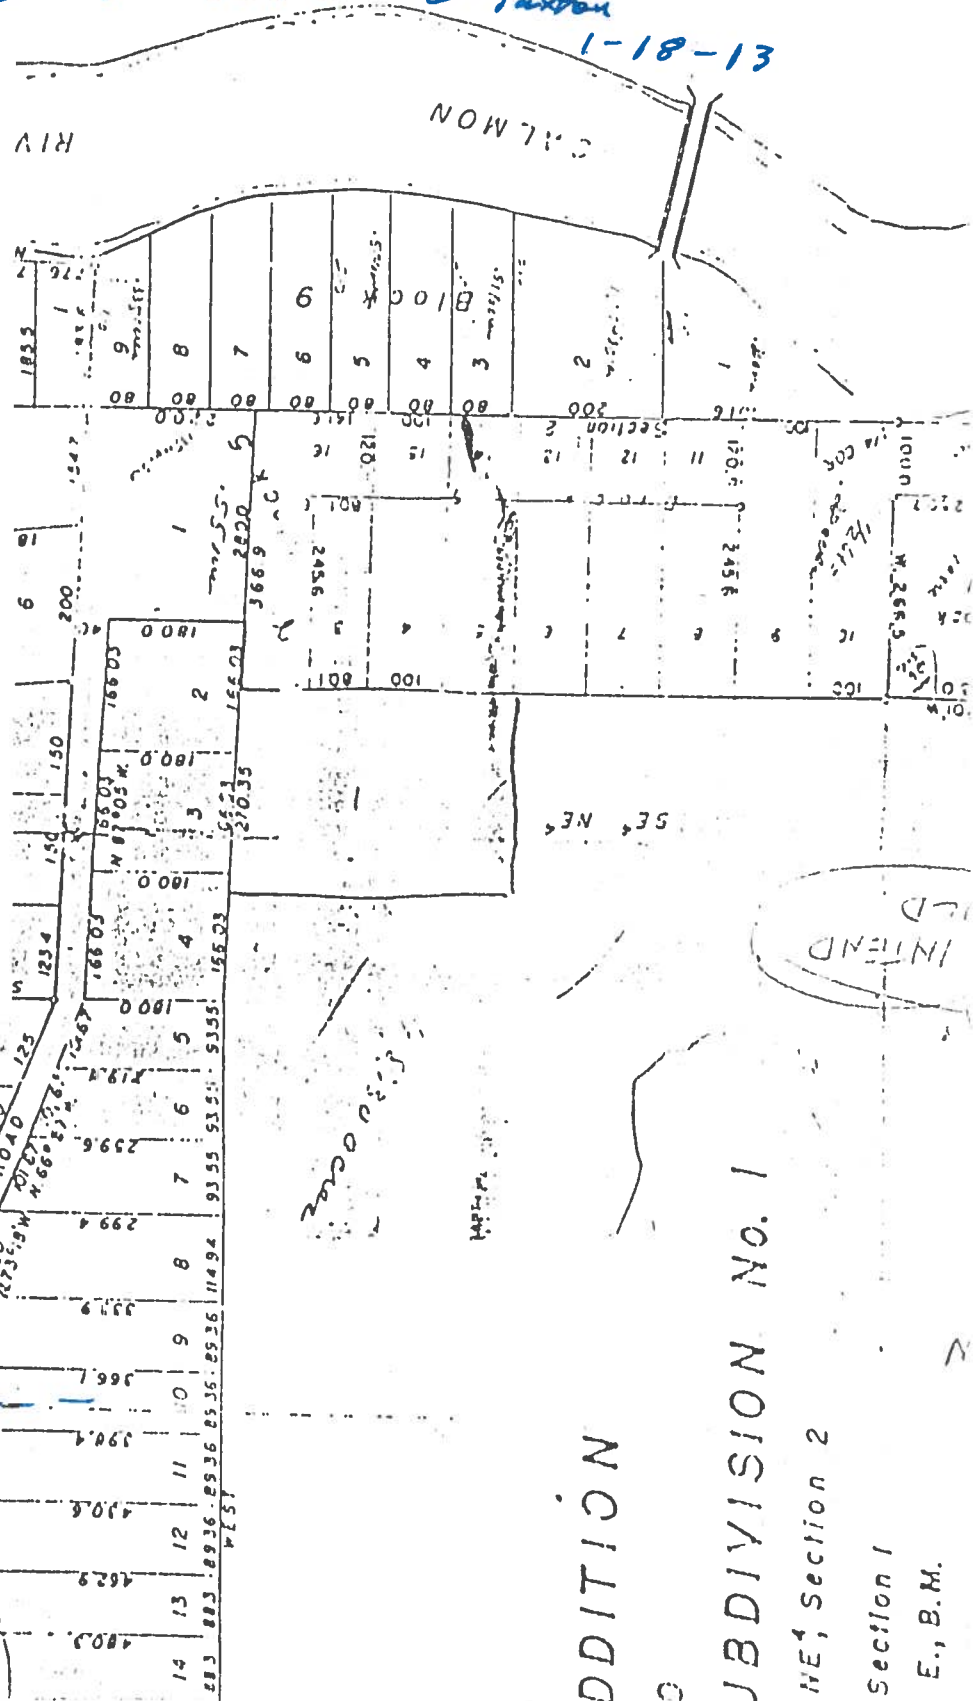

Condition #5 of the permit states that the POD is located within Lot 13, Blk. 8. This is inconsistent with the permitted POD and the POD location originally identified by the permit holder when Jean sent him a map asking him to locate the POD.

MEMORANDUM

FROM: Jean Hersley

DATE: January 14, 2013

RE: Application for Amendment 75-7653

On November 1, 2012, I sent a letter and map requesting the permit holder to mark the POD and POU for water right permit 75-7653.

On November 13, 2013, the Dept. map was returned with a different location for the POD marked than the permit was originally issued for.

On January 7, 2013, an application for amendment was sent depicting the POD as was marked on the map returned by the permit holder.

On January 14, 2013, Mr. Hawkins called to let me know he mistakenly marked the wrong POD on the map. The POD is correct on the permit and the license will be issued to reflect the permit.

*Craig determined ~~we~~ we needed to be sure of the POD & added this to the field exam list

*In June of 2013, Sandra Thiel visited the site to determine the point of diversion. The

GPS location is T19N, R21E, Sect. 2 NESWNE.

An ^{other} application for amendment will be sent.
