Subject: *Blackrock Subdivision HOA 36-acre Permissible Place of Use*

Dear Cherie,

This letter is in response to your request for designation of the specific 25 acres to be irrigated within the 36-acre permissible place of use Blackrock Subdivision proposed on their water bank rental application.

There are 45 lots within Blackrock Subdivision. As of 2013, homes are now constructed on a majority of the lots. Undeveloped lots are not irrigated. We are unable to provide a GIS shapefile identifying the specific 25 irrigated acres within the 36-acre permissible place of use due to a lack of current aerial photography. The lots vary in size from 0.60 to 1.0 acre and, excluding the roads, add up to 36 total acres. We assume that no more than 70% of each lot can or will be irrigated within the 36-acre permissible place of use, which is a very conservative estimate.

Please let me know if you have any other questions. Thanks Cherie.

Sincerely,

Lori Graves
Water Rights Specialist
