Re: Notice of Change in Water Rights Ownership – 47-7146 and 47-7263B

Dear Ms. Hersley:

Enclosed is the Notice of Change in Water Rights Ownership form for the two water rights listed above. Accompanying the form are three exhibits, 1) the deed evidencing the conveyance, 2) the plat maps showing the places of use of water right no. 47-7146, and 3) the plat maps showing the places of use for water right no. 47-7263B. An attempt was made to accomplish this change earlier this year, but failed for lack of sufficient evidence of the conveyance.

Earlier this year, when the Notice of Change form was returned to my client, Ms. Bettis, Danni Smith indicated that the fee submitted was insufficient because water right 47-7263B appeared to be a split right. When Ms. Bettis' predecessor submitted the SRBA claim the water right was still in the permit form and a neighboring water user submitted a competing claim for a portion of the water right. I have enclosed a file memo from Vicki Hancock dated March 24, 2005, indicating that the competing claim, 47-7263A, was recommended for disallowance. The SRBA court recommended that the competing claim be disallowed, therefore the right was never split and the additional fee for a split right is not required in this case.

I have also enclosed a redacted copy of the engagement letter signed by Ms. Bettis demonstrating that I am indeed her legal counsel, and therefore authorized to sign the Notice of Change form in her place.

A check in the amount of \$50.00 (fifty dollars) is enclosed covering the administrative fee to process the change in ownership for the two rights. Should you have any questions concerning this matter, please call me at the Boise number listed above.

Very truly yours,

BARKER ROSHOLT & SIMPSON LLP
