Re: Murphy Land Company LLC

Dear Mrs. Skaggs:

Murphy Land Company LLC has purchased water right 2-10398 and 2-10395 and desires to lease 2-10398 and 2-10395. It is expected that these water rights will be transferred to a permanent location. By leasing the water rights to the Water Bank, any forfeiture issues can be prevented.

Water right 57-11708 has historically been used in combination with 2-10398 and 2-10395 but 57-11708 has been relinquished back to the State of Idaho.

The current POU of water rights 2-10398 and 2-10395 is designated on property not owned by Murphy Land Company. Extensive work and effort has been put forth by Mike Ihli, Western Regional IDWR staff, Monica Van Bussum formally of IDWR and myself regarding clarifying the ownership of these water rights and the current POU. Attached to this letter are warranty deeds and property ownership affidavits. All property owners have been contacted and are fully aware of the proposed lease and future transfer of the water rights. The water rights were sold to Murphy Land Company by Mike Ihli without and physical land being included in the purchase agreement.

Please copy our office on all correspondence regarding these applications. Thank you for your assistance and if you have questions or comments, please call.

Sincerely,

Greg Sullivan, M.S.
