Subject: *Application to Rent Water*

Dear Pam,

Enclosed on behalf of Blackrock Subdivision Homeowners' Association, Inc., is an *Application to Rent Water From the Water Supply Bank* for the remainder of the Boise-Kuna Irrigation District irrigation season.

Upon analysis of Department records, it appears a 25-acre portion of Boise River water right 63-161BN is available for lease. Tim Page, Manager of Boise Project Board of Control, confirmed that, upon Department approval, the water will be delivered to Blackrock Subdivision for irrigation use through the Boise-Kuna Irrigation system. Applicants currently do not have enough assessed surface water from BKID to make it through the delivery season. They recently received approved permit 63-33742 authorizing supplemental ground water to be used for irrigation, however the proposed well is not scheduled to be drilled until Fall, 2013.

The 25 acres available for rent under water right 63-161BN authorize an irrigation rate of 0.02 cfs/acre. This equates to delivery of 1.0 ac-ft/day for 25 acres (0.5 cfs x 1.9835). Tim Page anticipates surface water delivery from BKID will end around September 1, 2013. Assuming the requested rental water can be approved and delivered the first part of July, applicants will only be able to use approximately 60 ac-ft of the 112.5 ac-ft authorized for the 25 acres because they are subject to BKID's delivery season. As such, applicants requests the rental fee be based on 60 useable ac-ft, rather than 112.5 annual ac-ft authorized for the 25 acres. If the surface water delivery season extends beyond 60 days from the date of approval, applicants will gladly pay for the shortage.

Please let me know if there are any questions concerning this application. Thanks Pam.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lori Graves".
