RE: Water Right Permit No. 57-7549

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, an additional point of diversion has been added to other ground water right, 57-2195, through water right transfer number 76180. In order to avoid a future transfer, we have added this new point of diversion onto this permit through the attached licensing amendment. We have also included a permissible place of use for the 85 acres associated with this right that encompasses the entire farm.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days. If Brian and Christine Collett as new owners of the property, they have authority to sign this amendment form if a completed change of ownership form is also submitted.

In a telephone conversation with Brian Collett, I was informed that Brian and Christine are the new owners of the property associated with this permit. We can change the ownership of this water right with the enclosed change of ownership form and the \$25 fee. We can do everything at licensing if we receive this information back together. **With the amendment fee and the change of ownership fee, the total amount required to license this permit is \$125.**

If you have any questions, please contact me.

Sincerely,

Daniel A. Nelson
