RE: Water Right Permit No. 57-7549

Dear Permit Holder(s):

In May of this year, I sent you an amendment of permit and ownership change form for permit 57-7549. This permit was originally in the name of Bob and Ruth Collett. A second review of this permit as revealed that there were some errors on that amendment that need to be clarified before a license can be issued. The following things have been changed on this new amendment form:

1. The amendment was sent out in Bob and Ruth's name, and was signed by Christine Collett. The ownership information accompanied this amendment showing the property is now owned by Brian and Christine Collett. The amendment should have been sent out with the names on the form for which the license will be issued or in the name of Brian and Christine Collett.
2. On the first amendment, we limited the rate of diversion to the measured capacity of the well at the time the field exam was performed on this well minus the earlier irrigation right or 1.05 cfs. By doing this, we would have limited the rate in which you could apply water on each acre with this second water right. Therefore, we changed this amount to reflect the rate that was licensed under the earlier water right. This increases the rate of diversion for this water right from 1.05 cfs to 1.65 cfs. You will still be limited to the system capacity at the time the permit was field examined of 2.62 cfs.
3. Whereas this well supplements your surface water rights, there is no need to include a diversion volume on the water right. Therefore, we removed the diversion volume from the water right.
4. Finally, we adjusted the conditions of approval to insure that water is used properly.

I am sorry that we need to go through the amendment process again, but it we want to ensure that we license your water right properly. Please review the attached amendment, and if you concur with the changes please sign it and return it to our office. By signing this amendment, you will withdraw the amendment signed on May 15th, 2013. The good news is that this amendment will not require an additional fee. **The payment of the fee for the first amendment will be carried over this amendment.** Please respond within 14 days of this mailing.

I am very sorry for the inconvenience. Please feel free to contact me with any questions.

Respectfully,

Daniel A. Nelson
