RE: Site Visit & Licensing Recommendations

I conducted a site visit on 6/4/13 to GPS well and trough location(s). An initial exam/site visit was conducted by Department staff on 10/20/1997. However, an exam report was never written to allow for permit licensing. 2013 exam report and memo written to facilitate licensing.

Summary of Site Visit & Licensing Recommendations

Site Investigation:

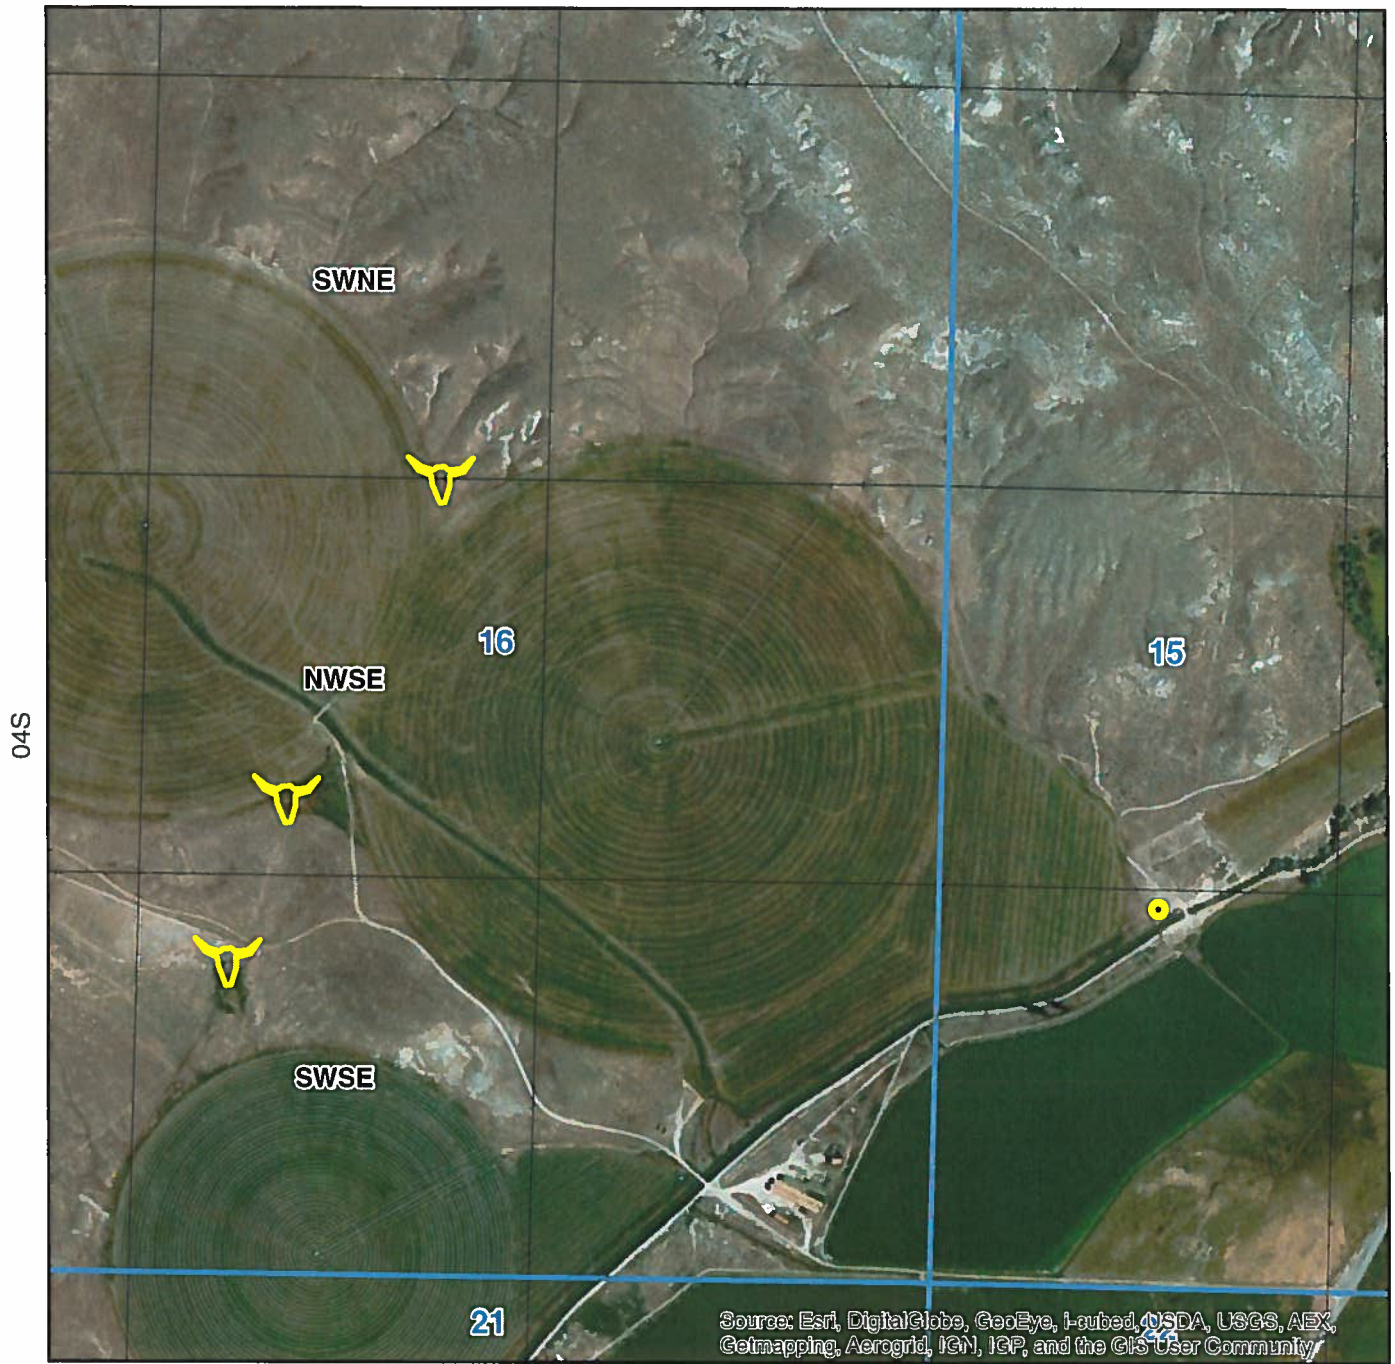

- **Well No. 1 & Well No. 2:** GPS'd location of these wells [Gov't Lot 5(SE SW) Sec 15 T4S R2E] for correction of well construction records by Department staff. Confirmed with owner these two wells are NOT connected to system/troughs servicing the P/U under 57-7631.
- **Well No. 3:** GPS'd location of well [SW SW Sec 15 T4S R2E]. This is only well that services stockwater system in P/U under 57-7631.
- **Trough Locations – P/U:** GPS'd location of two (southern most) of the three troughs scene within the P/U. Troughs supplied via single pipeline system. Location of third trough (northern most) confirmed visually as well as via aerial photography.
- **No. and Type of Stock:** Permit holder confirmed up to 1,000 range cattle within P/U.
- **Map, well log and photos attached for reference.**

Recommendations for Licensing & Comments:

- **P/D Recommendation:** Single P/D (Well No. 3) in SW SW Sec 15 T4S R2E.
- **P/U Recommendation:** Troughs located within SW NE, NW SE, and SW SE of Sec 16 T4S R2E. Permitted P/U included SE NE Sec 16 T4S R2E, but no stock trough observed within that QQ, recommend exclusion of this QQ from licensed P/U. Stock trough observed in NW SE Sec 16 T4S R2E despite this QQ not included on permitted P/U. Recommend licensing amendment to include this QQ in right P/U.
- **Rate & Volume Recommendation:** Beneficial use rate limit 1,000 range cattle is 0.23 cfs. Permitted rate is 0.20 cfs. Exam fee paid (\$50) up to 0.20 cfs. Permit rate recommended for license. Volume required for 1,000 range cattle @ 12 gpd/head is 13.4 AF. Volume diverted (based on 0.20 cfs recommended rate) over 365 day season of use is 144.8 AF. Recommend lesser of two volumes for licensing, 13.4 AF.
- **Exam/Proof Fee:** No information on proof form that exam fee was paid (no receipt number recorded). Permit amendment application, submitted with \$50 fee (W021936), was never processed and the fee was not used towards a transfer as documentation in file indicates it might be. Assume ok to accept \$50 fee paid for amendment application as proof/exam fee.

RE: Water Right Permit No. 57-7631

Dear Permit Holder:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 Place of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at (208)334-2190.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
