Mr. Nagy,

Before I can send your application for permit in for advertising, I need one piece of information. What is the water bearing zone you anticipate for this well? You indicate the well will only be 65 feet deep, so is 10 to 65 feet a reasonable assumption of the water bearing zone?

Please let me know if the above water bearing zone is accurate or give me a more accurate description at your earliest convenience so that processing can continue on the application.

Thank you.
