Subject: Water Right 63-5386

Dear Steve,

Water right 63-5386 allows irrigation of 93 acres within a 207-acre permissible place of use (ppu) per approved transfer No. 74949. One of the conditions listed on the water right requires the right holder to submit a land list and map of the 93 acres to be irrigated within the ppu. Enclosed on behalf of Avimor Partners, LLC, is a land list and GIS photo map identifying the specific 93 acres to be irrigated under water right 63-5386. I will be happy to email you the electronic shape file for these acres upon request.

Please let me know if you have any questions. Thanks Steve.

Sincerely,

Lori Graves
Water Rights Specialist
