From: Kerrie Mathews

Re: Evaluation Memo

Transfer No. 78572 for water right 29-7196, proposes to split a portion of the right, change the point of diversion and update the ownership of the split portion.

The original application was amended on May 6, 2013 to correct the POD and the diversion rate.

Authority to file:

Water right 29-7196 is currently in the name of Evelyn and Richard Walker. The current place of use is in the name of Bryce and Erica Hollingshead. The transfer application contained a warranty deed establishing ownership of the new POD and the existing POU conveying a portion of the parent right to the property owners.

Validity of the Water Right:

Water rights 29-7196 was decreed on March 22, 2004. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. The existing and proposed POD are not located within the ESPA. The application was advertised, no protests were received. WD29H is inactive and was not notified of the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
