DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1.A.2 Continued

A.2 PURPOSE OF TRANSFER

To improve system efficiency and reduce pumping losses in the mainlines of the Teton Pipeline Assoc. Inc. (TPA), the association proposes to use a wing wall on the existing remains of the Linderman Dam (no reconstruction of dam is proposed) as an additional diversion in the Teton River. The Linderman Dam would be a Point of Re-Diversion for Ground Water and a Point of Diversion for the Teton River water rights. Transfer proposes to include two TPA licensed ground water rights 22-7221 and 22-7504 that were not required to be included in the Snake River Basin Adjudication, but overlap a portion of the place of use. License 22-7221 adds one (1) acre and License 22-7504 adds fourteen (14) acres for a total of fifteen (15) acres added to the existing 13061.6 acres for a total of 13076.6 acres (See Attachment # 9.c). The transfer proposes to rearrange the irrigated acres and establish a Permissible Place of Use with no increase in the Decreed or Licensed diversion rates or acres irrigated.

See Attachment #9.a Agreement Regarding Filing of Water Right Transfer Application between Skyline Farms (Conn Crapo), Bott Land, Inc. and the Teton Pipeline Association.

See Attachment #9.b "Contract and Grant License" between Bureau of Reclamation and Skyline Farms (Conn Crapo)

B. DESCRIPTION OF RIGHT(S) AFTER THE REQUESTED CHANGES. IF THE RIGHTS ARE BEING SPLIT, DESCRIBE PORTIONS TO BE CHANGED AS THEY WOULD APPEAR AFTER THE REQUESTED CHANGES (Cont.)

2. Total amount of water being transferred or changed 66.80 cubic feet per second and/or _____ acre-feet per annum.

3. Point(s) of Diversion: **ADDS A POINT OF DIVERSION – TETON RIVER RIGHTS & A POINT OF RE-DIVERSION – GROUND WATER RIGHTS**

- ☐ No changes to point(s) of diversion are proposed-the following chart is therefore not completed. (Proceed to #4).
☒ Attach Eastern Snake Plain Aquifer analysis if this transfer proposes to change a point of diversion affecting the ESPA.

Label it Attachment #5, Points of Diversion & Points of Re-Diversion are outside the ESPA.

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

PART 1.B (Cont.)

5. General Information:

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future: Linderman Dam will be the Point of Diversion for the Teton River Water Rights and a Point of Re-Diversion for the Ground Water Rights of the Teton Pipeline Association Inc. The water will be pumped into the irrigation system from the Teton River. A measuring device can be installed on the mainline. A lockable controlling works could be a valve in the mainline or the ability to lock the electrical panel.

b. Who owns the property at the point(s) of diversion? Bureau of Reclamation

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system: Conn Crapo, a shareholder of Teton Pipeline Association, has a "Contract and Grant of License" agreement with the Bureau of Reclamation to use the Linderman Dam as a point of diversion in the Teton River (See Attachment # 9.b).

An agreement (Attachment # 9.a) between Conn Crapo & the Teton Pipeline Association allows him to pursue the transfer rearranging the place of use on his property & adding the Linderman Dam as a Point of Diversion for Teton River rights & a Point of Re-Diversion for the ground water rights of the Teton Pipeline Association.

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? No ☒

If yes, ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage, or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

d. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

The lands now irrigated will change within the Permissible Place of Use (PPU); however, only 13,076.6 acres will be irrigated each year with in the 19,110.5 acres of the PPU.

e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) of use:

Ground water right 22-7501 (E½ Sec 31, & W½ Sec 32, T07N, R43E) is appurtenant to a portion of the PPU proposed by this transfer. To maintain 22-7501 as a primary water right it will be transferred to other lands with the approval of this transfer.

f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes	No	
☐	☒	undergone a period of five or more consecutive years of non-use,
☐	☒	currently leased to the Water Supply Bank,
☐	☒	currently used in a mitigation plan limiting the use of water under the right, or
☐	☒	currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe: _____

2. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
3. U42 Place of use does not include federal public lands
4. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
5. B09 This right is subject to regulation by the watermaster of Water District 01.
6. K06 This right is limited to the irrigation of 160 acres within the place of use described above in a single irrigation season.
7. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
8. K01 Right No. 22-13271 is an enlargement of the following rights pursuant to Section 42-1426, Idaho Code: 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, and 22-7505.
9. Total Acres: 13062

Conditions of Approval:

1. S46 The use of water for irrigation under this right may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water after October 15 under this remark is subordinate to all water rights having no subordinated late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
2. G04 Water diverted under this right is exchanged by injecting water diverted under this right into Teton Island Feeder Canal and diverting an equal amount from Teton River at the points of rediversion described above.
3. E53 Right Nos. 22-7188 and 22-7470 are limited to a total combined annual diversion volume of 1500 AF.
4. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton Island Feeder Canal.
5. E61 The rights listed below are limited to a total combined diversion rate of 66.80 cfs and to a total combined annual diversion volume of 26,500 AF.
Combined Right Nos.: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288.
6. C03 Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

7. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
8. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
9. 129 Place of use is within the area served by Teton Pipeline Association.
10. E55 Right Nos. 22-7188 and 22-7470 are limited to the irrigation of a combined total of 429 acres in a single irrigation season.
11. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
12. U42 Place of use does not include federal public lands
13. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.
14. F06 The following rights are also diverted through points of redirection/diversion described above: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288.
15. R19 The right holder shall maintain a totalizing measuring device at each point of diversion and point of redirection of a type approved by the Department as a part of the diverting works.
16. The exchange well must inject water into the Teton Island Feeder Canal under this right, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the head of the Teton Island Feeder Canal.
17. K06 This right is limited to the irrigation of 350 acres within the place of use described above in a single irrigation season.
18. B09 This right is subject to regulation by the watermaster of Water District 01.

Combined Right Nos.: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288.
5. R19 The right holder shall maintain a totalizing measuring device at each point of diversion and each point of rediversion of a type approved by the Department as a part of the diverting works.
6. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
7. U42 Place of use does not include federal public lands
8. K01 Right No. 22-13288 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
9. G03 Water diverted under this right is exchanged by injecting water diverted under this right into Teton River at the points of injection described above, and diverting an equal amount from Teton River at the points of rediversion described above.
10. S46 The use of water for irrigation under this right may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water after October 15 under this remark is subordinate to all water rights having no subordinated late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
11. The exchange well(s) must inject water into the Teton River under this right, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point(s) of injection.
12. C03 Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.
13. F06 The following rights are also diverted through points of rediversion/diversion described above: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288.
14. 129 Place of use is within the area served by Teton Pipeline Association.
15. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.

Conditions of Approval:

16. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
17. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange wells will be allowed even if the exchange wells are pumping water into the Teton River.

Combined Right Nos.: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288.
8. R19 The right holder shall maintain a totalizing measuring device at each point of diversion and each point of rediversion of a type approved by the Department as a part of the diverting works.
9. Unperforated well casing shall be retained to a depth of 150 feet to prevent interference with shallow wells and recharge to the river.
10. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
11. S46 The use of water for irrigation under this right may continue to as late as October 31, provided other elements of the right are not exceeded. The use of water after October 15 under this remark is subordinate to all water rights having no subordinated late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
12. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
13. 129 Place of use is within the area served by Teton Pipeline Association.

Conditions of Approval:

Conditions of Approval:

1. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT.
2. R30 This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.
3. 048 The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
4. 049 The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
5. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton River.
 A totalizing measuring device shall be maintained at the exchange well and rediversion pumps from the Teton River.
 The exchange well must inject water into the Teton River whenever water is being diverted from the river under this right, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.
 The power supply to the exchange well cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated.
 The rate of rediversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange well.
 Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.
 The rate of diversion under this right in combination with all other water rights from the Clementsville (North 1) Project of the Teton Pipeline irrigation system shall not exceed 28.7 cfs. The maximum combined rate of diversion under this right and Right No. 22-07375 shall not exceed 12.44 cfs.

APPLICATION FOR TRANSFER OF WATER RIGHT

Part 3

☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.

☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemental, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on part 3B above:

AGREEMENT REGARDING FILING OF WATER RIGHT TRANSFER APPLICATION

THIS AGREEMENT REGARDING FILING OF WATER RIGHT TRANSFER APPLICATION (this "Agreement") is made by and between Skyline Farms, an Idaho general partnership, whose address is 1908 East 500 North, St. Anthony, ID 83455 ("Skyline"), Bott Land, Inc., an Idaho corporation, whose address is 13500 W. Hwy. 33, Newdale, ID 83436 ("Bott"), and Teton Pipeline Association, Inc., an Idaho Corporation engaged in the delivery and use of irrigation water, whose address is PO Box 272, Teton, ID 83452 ("TPA"). Collectively, Skyline, Bott, and TPA are referred to herein as the "Parties."

RECITALS:

A. TPA is the holder of numerous water rights that allow it to divert and use water from the Teton River for irrigation purposes on the farms of its stockholders for the irrigation of approximately 13,062 acres. A list of TPA's water rights is attached hereto as Exhibit 1. Membership in TPA is evidenced by issued stock certificates.

B. Skyline is under contract for the purchase of property currently titled in the name of Bott. The property is depicted on Exhibit 2 attached hereto, and is further described in Exhibit 3 (hereinafter, the "Bott Property"). Some of the Bott Property is located within the service area of TPA, and some of it is not. Pursuant to Bott's stock ownership, the Bott Property is authorized to irrigate 1794.5 acres of land for that portion located within TPA's service area.

C. Skyline desires to rearrange the 1794.5 acres allocated to it for irrigation purposes to cover both lands within TPA's service area, as well as lands located outside of TPA's service area. In addition, Skyline desires to add a point of diversion to TPA's water rights on the Teton River at the approximate location of what is commonly known as the "Linderman Dam" located at the SW1/4SE1/4 of Section 16, Township 7N, Range 43 E, Boise Meridian, in Teton County.

D. In addition to the Bott Property, Skyline has purchased most of the former Linderman farm (which portion is hereinafter referred to as the "Linderman Property"). The Linderman Property has not been historically irrigated under TPA's water rights. Skyline desires to also irrigate the Linderman Property through the proposed point of diversion at the Linderman Dam, either with water that may be permitted by TPA, or through other water supplies or authorizations obtained by Skyline. In order to accomplish Skyline's desires, it will be necessary for Skyline to amend TPA's water rights to allow for the Linderman Dam diversion point, as well as the creation of a permissible place of use for TPA's water rights to allow Skyline to use water to irrigate the acres on the Bott Property and the Linderman Property that it desires.

AGREEMENT REGARDING FILING OF WATER RIGHT TRANSFER APPLICATION - 1

IN CONSIDERATION of the mutual representations, warranties, and covenants contained herein, the Parties, intending to be legally bound hereby, agree as follows:

AGREEMENTS:

1. Filing of Transfer Application to the Department. It is understood and agreed that Skyline intends to, and shall, immediately upon full execution of this Agreement file an application for transfer of a water right under Idaho law ("**Application for Transfer**" or "**Transfer**") of TPA's water rights with the Idaho Department of Water Resources ("**IDWR**"). The Transfer will provide TPA with greater flexibility under its water rights, which will entail a change to the place of use of TPA's water rights to include a permissible place of use which allows for irrigation of the Bott Property and Linderman Property, as well as the addition of a point of diversion near Linderman Dam.
2. Transfer Application Preparation Costs. Skyline shall pay all costs associated with the preparation of the Application for Transfer and perfection of the Transfer, including all of TPA's consultant fees and attorney fees. Skyline shall provide TPA and Bott with copies of all documents related to the Transfer, including all application materials, correspondence with the Department, and documents relating to any potential protests or hearings.
3. Cooperation with Transfer Efforts. TPA hereby confirms that upon full execution of this Agreement, Skyline has TPA's permission to make the Application for Transfer, and TPA agrees to sign any documentation to that effect required by the Department. At Skyline's request, TPA shall cooperate with Skyline in Skyline's pursuit of such Transfer, and shall provide Skyline with any information that TPA has concerning TPA's water rights that Skyline reasonably may request in furtherance of the Transfer.
4. Payment of Fees and Costs Associated with Transfer if Protested. The Parties understand that the Application for Transfer will be advertised pursuant to Idaho Code § 42-222 and other applicable Idaho law, which allows individuals or entities to protest the Transfer if the protestant believes the Transfer will violate one of the criteria set forth in Idaho Code § 42-222. Because TPA will be the Transfer applicant, TPA will be required to defend the Transfer at the prehearing conference, and potential hearing. Skyline hereby agrees that it will pay for any and all attorney fees, consultant fees, and other costs associated with defending the protested Transfer through the entire hearing process.
5. TPA Review of Transfer Approval. In the event the Transfer is approved, TPA shall have the opportunity to review it to ensure that it comports with the desired outcome outlined in the Application for Transfer. In the event TPA determines that the approved Transfer contains conditions that do not comport with the proposed Transfer, under IDWR procedures, TPA shall have fourteen (14) days to petition IDWR. In the event this is necessary, Skyline shall be responsible for any and all attorney fees, consultant fees, and other costs associated with this process.
6. Bott Consent and Reversion Right. Bott hereby consents to Skyline's proposed rearrangement of its 1794.5 acres to include portions of the Bott Property that have not historically been irrigated. In the event the contract for purchase of the Bott Property is not accomplished, Bott may thereafter move the 1794.5 acres to farmland it currently irrigates

AGREEMENT REGARDING FILING OF WATER RIGHT TRANSFER APPLICATION - 2

without the consent of Skyline, and Bott shall further be entitled to its share of the Linderman Dam point of diversion.

7. Linderman Dam Point of Diversion. Construction of the Linderman Dam point of diversion shall be done at the sole cost and expense of Skyline, and it shall be entirely owned and operated by Skyline. Notwithstanding the above, Skyline shall coordinate with TPA in the design phase of this project to ensure that any of TPA's measurement device requirements and other diversion construction requirements that TPA has, if any, are met.

8. Miscellaneous.

(a) Attorneys Fees. If either party commences any legal action or proceeding to enforce any of the terms of this Agreement (or for damages by reason of an alleged breach hereof), the prevailing party therein shall be entitled to recover from the other, in addition to any other relief granted, its reasonable attorney's fees, costs and expenses incidental to such legal action.

(b) Merger. This Agreement supersedes any and all other written or verbal agreements between the Parties. None of the Parties shall be bound by any understanding, agreement, promise, representation or stipulation, express or implied, not specifically contained herein.

(c) Further Documents. The Parties hereby agree that they shall sign such other and further documents as may be required to carry into effect the terms and conditions of this Agreement.

(d) Enforceability. The validity or enforceability of any term, phrase, clause, paragraph, restriction, covenant, agreement or other provision hereof, shall in no way affect the validity or enforcement of the remaining provisions, or any part hereof.

(e) Counterparts. This Agreement may be executed in any number of counterparts for all the convenience of the Parties, all of which, when taken together and after execution by all Parties hereto, shall constitute one and the same Agreement.

(f) Governing Law. This Agreement shall be governed by the laws of the State of Idaho.

(g) Successors. This Agreement is for the benefit only of the Parties hereto and shall inure to the benefit of and bind their respective heirs, agents, personal representatives, successors and assigns.

Contract No. 11-07-14-LA716

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION
Teton Basin Project, Idaho

CONTRACT AND GRANT OF LICENSE

THIS LICENSE, made this 29th day of November, 2011, pursuant to the Act of Congress approved June 17, 1902 (32 Stat. 388; 43 U.S.C. § 391), Section 10 of the Act of August 4, 1939 (53 Stat. 1187), and all acts amendatory thereof or supplementary thereto, collectively referred to as the Federal Reclamation Laws, between **THE UNITED STATES OF AMERICA**, hereinafter referred to as the United States, acting by and through the Bureau of Reclamation, U.S. Department of the Interior, hereinafter referred to as Reclamation, represented by the authorized official executing this License, and **SKYLINE FARMS**, hereinafter referred to as the Licensee.

WITNESSETH, THAT;

WHEREAS, the United States has acquired certain lands in Teton County, Idaho, for the Teton Basin Project (Project);

WHEREAS, the Licensee desires to utilize a portion of such land for the construction, operation, and maintenance of an access road, irrigation pipeline, pumping station, and necessary appurtenant structures and works to transport irrigation water to privately owned lands located on the south side of the Teton River Canyon. The Licensee further desires to continue to utilize an existing United States well, and a roadway and pipeline to transport potable water to a residence located on the south rim of the Teton River Canyon; and

WHEREAS, the proposed uses have been reviewed and determined to be compatible with Project purposes.

NOW, THEREFORE, in consideration of the mutual covenants and stipulations hereinafter stated, Reclamation and the Licensee do mutually agree as follows:

1. The United States hereby acknowledges the receipt of Nine Hundred Twenty-five Dollars (\$925.00) as the use fee and a deposit of Three Thousand Dollars (\$3,000.00) toward administrative costs. The balance of administrative costs shall be billed by the United States and must be paid by the Licensee prior to delivery of this License and use of the property. Upon full payment and in consideration for the total sum paid, the United States grants to the Licensee, subject to the terms and conditions of this License, a twenty (20) year, non-exclusive, non-transferrable, License to construct, operate and maintain a pumping station, irrigation pipeline,

and access road for agricultural-related purposes only, together with necessary appurtenances, and to use, operate and to maintain the United States' well, and a roadway and pipeline.

The pumping station, irrigation pipeline and access road will be located upon, over, and across land owned by the United States (from the Teton River to the southern Teton canyon rim), situated in the Southwest quarter of the Southeast quarter (SW¼SE¼) of Section 16 and the Northeast quarter (NE¼) of Section 21, Township 7 North, Range 43 East, Boise Meridian, Teton County, Idaho. The area is more particularly depicted and identified on Exhibit A attached hereto and made a part hereof.

The pumping station will consist of five 600 horse power pumps placed on a 30' x 10' concrete wall structure which will be constructed adjacent to an existing 15' x 15 concrete pad along the Teton River. Construction of the pumping station will be in the manner shown on Exhibit B attached hereto and made a part hereof. The 30" irrigation pipeline will be located above-ground (up the southern canyon wall). The license area shall be twenty (20) feet wide (10 feet on each side of centerline), by 1,078' long and contains 0.49 acre, more or less. The license area for the access road shall be twenty (20) feet wide (10 feet on each side of centerline), by 3,378' long and contains 1.55 acres, more or less. The license area for the pumping station shall be 40 feet by 40 feet (to facilitate turn around for maintenance and access), and contains .04 acre, more or less.

The potable water well, water pipeline and access road will be located upon, over, and across land owned by the United States (on the southern Teton canyon rim), situated in the Southeast quarter of the Southeast quarter (SE¼SE¼) of Section 16 and the Northeast quarter of the Northeast quarter (NE¼NE¼) of Section 21, Township 7 North, Range 43 East, Boise Meridian, Teton County, Idaho. The area is more particularly depicted and identified on Exhibit A attached hereto and made a part hereof. The license area of the United States well shall be 40 feet by 40 feet (to facilitate turn around for maintenance and access), and contains .04 acre, more or less. The license area for the access road shall be twenty (20) feet wide (10 feet on each side of centerline), by 1,279' long and contains 0.59 acre. The water pipeline is buried beneath the access road, and is contained within the license area for the road.

The total license area shall contain 2.71 acres, more or less.

2. The Licensee shall install fish screens on the intake pipe to prevent fish from entering the pumping facilities, in compliance with requirements of the Idaho Fish and Game Department. Licensee shall provide containment for oil at the pumping station, in compliance with requirements of the Clean Water Act.

3. The Licensee shall rehabilitate disturbed United States land by grading the disturbed land back to its original state, seeding and reestablishing native ground cover, and fertilizing the land, all to Reclamation's specifications when construction is completed or after any ground disturbing maintenance.

4. The facilities of the Licensee shall be constructed, operated and maintained by the Licensee without cost to the United States, or to its successors and assigns, and in such a manner as to not interfere with the normal operation of works of the United States. All construction,

reconstruction, and maintenance work on the facilities of the Licensee shall be undertaken only at times, according to plans, and in a manner satisfactory to Reclamation.

5. The Licensee shall construct, operate and maintain the facilities and appurtenances in a good, workmanlike manner and shall insure compliance with the laws of the State of Idaho and with all laws, regulations, and orders of the United States and any other public authority affecting such works.

6. The Licensee agrees as follows:

a. There is reserved to the United States and its successors and assigns, the prior right to use any of the license area herein described to construct, operate and maintain all Project structures and facilities, including, but not limited to, canals, reservoirs, wasteways, laterals, ditches, roadways, electrical transmission lines, communication structures generally, substations, switchyards, powerplants, recreation, fish and wildlife developments and facilities, and any other appurtenant Project structures and facilities, without any payment made by the United States or its successors, for such right.

This includes the right of United States to raise the water level of the Teton River by development of dams and reservoirs therein. The Licensee at its sole cost and expense, and without compensation from the United States, shall remove or conform any and all facilities constructed or existing pursuant to this License, which are determined by the United States to be impacted by the construction, operation, maintenance or development of such dams and reservoirs, and appurtenant facilities of the United States.

b. If the construction, reconstruction, operation or maintenance of any or all of such structures and facilities across, over, under or upon said License area should be made more expensive by reason of the existence of improvements or works of the Licensee thereon, such additional expense is to be estimated by Reclamation, and the Licensee shall remit payment to cover such additional expenses. The estimate for each occurrence is final and binding upon the parties hereto. Within thirty days after demand is made upon the Licensee for payment of any such sums, the Licensee will make payment thereof to the United States as directed by Reclamation. As an alternative to payment, the Licensee, at its sole cost and expense and within time limits established by the United States, may remove or adapt facilities constructed and operated by it on said license area to accommodate the aforementioned structures and facilities of the United States. The Licensee shall bear the cost to the United States of any costs occasioned by the failure of the Licensee to remove or adapt its facilities within the time limits specified.

c. There is reserved to the United States the right of its officers, agents, and employees at all times to have unrestricted access and ingress to, passage over, and egress from all of said lands, to make investigations of all kinds, dig test pits and drill test holes, and to survey for and construct reclamation and irrigation works and other structures incident to Federal Reclamation Projects, or for any purpose whatsoever.

Reclamation will make every reasonable effort to cooperate with the Licensee to keep potential impacts to the Licensee's facility to a minimum.

d. The United States and its employees, agents and assigns, shall not be held liable for any damage to the Licensee's improvements or works by reason of the exercise of the rights here reserved; nor shall anything contained in this paragraph be construed as in any manner limiting other reservations in favor of the United States contained in this agreement.

e. The Licensee shall immediately provide an oral notification to Reclamation's authorized official of the discovery of any and all antiquities or other objects of archaeological, cultural, historic, or scientific interest on Reclamation lands. The Licensee shall follow up with a written report of their finding(s) to Reclamation's authorized official within forty-eight (48) hours. Objects under consideration include, but are not limited to, historic or prehistoric ruins, human remains, funerary objects, and artifacts discovered as a result of activities under this authorization. The Licensee shall immediately cease the activity in the area of the discovery, make a reasonable effort to protect such discovery, and wait for written approval from the authorized official before resuming the activity. Protective and mitigative measures specified by Reclamation's authorized official shall be the responsibility of the Licensee.

f. There is reserved to the United States and to the public the right of free and ready use of the area covered by this License for the purpose of access to the Teton River and to any reservoir developed by the United States.

7. The Licensee agrees to indemnify the United States for, and hold the United States and all of its representatives harmless from, all damages resulting from suits, actions, or claims of any character brought on account of injury to any person or property arising out of any act, omission, neglect, or misconduct in the manner or method of performing any construction, care, operation, maintenance, supervision, examination, inspection, or other activities of the Licensee.

8. Hazardous Materials:

a. The Licensee may not allow contamination or pollution of Federal lands, waters or facilities and for which the Licensee has the responsibility for care, operation, and maintenance by its employees or agents and shall take reasonable precautions to prevent such contamination or pollution by third parties. Substances causing contamination or pollution shall include but are not limited to hazardous materials, thermal pollution, refuse, garbage, sewage effluent, industrial waste, petroleum products, mine tailings, mineral salts, misused pesticides, pesticide containers, or any other pollutants.

b. The Licensee shall comply with all applicable Federal, State, and local laws and regulations, and Reclamation Policy and Directives and Standards, existing or hereafter enacted or promulgated, concerning any hazardous material that will be used, produced, transported stored, or disposed of on or in Federal lands, waters, or facilities.

c. "Hazardous material" means any substance, pollutant, or contaminant listed as hazardous under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. § 9601, et seq., and the regulations promulgated pursuant to that Act.

d. Upon discovery of any event which may or does result in contamination or pollution of Federal lands, waters or facilities, the Licensee shall initiate any necessary emergency measures to protect health, safety and the environment and shall report such discovery with full details of the actions taken to Reclamation. Reporting may be within a reasonable time period. A reasonable time period means within twenty-four (24) hours of the time of discovery if it is an emergency or by the first working day if it is a non-emergency. An emergency is any situation that requires immediate action to reduce or avoid endangering public health and safety or the environment.

e. Violation of any of the provisions of the Article, as determined by Reclamation may constitute grounds for termination of this contract. Such violations require immediate corrective action by the Licensee and shall make the Licensee liable for the cost of full and complete remediation and/or restoration of any Federal resources or facilities that are adversely affected as a result of the violation.

f. The Licensee agrees to include the provisions contained in paragraphs (a) through (e) of this Article in any subcontract or third-party contract it may enter into pursuant to this contract.

g. Reclamation agrees to provide information necessary for the Licensee using reasonable diligence, to comply with the provisions of this Article.

9. Pest Control:

a. The Licensee shall not permit the use of any pesticides on Federal lands without prior written approval by Reclamation. The Licensee shall submit to Reclamation for approval an Integrated Pest Management Plan (IPMP) thirty (30) days in advance of pesticide application.

b. All pesticides used shall be in accordance with the current registration, label direction, or other directives regulating their use (State of Idaho Department of Agriculture, State of Idaho Department of Ecology, Occupation Safety and Health Administration, etc.) and with applicable Reclamation Policy and Directives and Standards. Applicators will meet applicable State training or licensing requirements. Records maintenance shall be in accordance with State requirements and such records shall be furnished to Reclamation not later than five (5) working days after any application of a pesticide.

c. Any equipment, tools, and machines used for pesticide application shall be in good repair and suitable for such use. Equipment shall be calibrated prior to the spraying season and as deemed necessary by Reclamation.

d. Mixing, disposal, and cleaning shall be done where pesticide residues cannot enter storm drains, sewers, or other non-target areas.

e. The Licensee shall initiate any necessary measures for containment and clean up of pesticide spills. Spills shall be reported to Reclamation with full details of the actions taken. Reporting may be within a reasonable time period. A reasonable time period means, within twenty-four (24) hours of the spill if it is an emergency or by the first working day if it is a non-emergency. An emergency is any situation that requires immediate action to reduce or avoid endangering public health and safety or the environment.

f. Aerial application of pesticides is prohibited without prior written consent by Reclamation.

g. The Licensee agrees to include the provisions contained in paragraphs (a) through (f) of this Article in any subcontract or third-party contract it may enter into pursuant to this contract.

10. This License will terminate and all rights of the Licensee hereunder will cease, and the Licensee will quietly deliver to the United States possession of the premises in like condition, except reasonable wear and damage by the elements, as when licensed:

a. At the end of twenty (20) years from the date of this License.

b. Upon written notice to the Licensee by Reclamation, or to Reclamation by the licensee, served no less than 90 days in advance thereof.

c. After failure of the Licensee to correct any conditions adverse to elements of this License within any time frame allowed, and on the tenth day following service of written notice on the Licensee of termination because of failure to correct such condition. Such notice of termination may be made concurrently with the notice to correct, at Reclamation's option.

d. The United States, acting through Reclamation, Department of the Interior, reserves rights to construct, operate, and maintain public works now or hereafter authorized by the Congress without liability for termination of the agreement or other damage to the Licensee's activities or facilities.

e. Reclamation may, at any time and at no cost or liability to the United States, terminate any use authorization in the event of a natural disaster, a national emergency, a need arising from security requirements, or an immediate and overriding threat to public health and safety.

f. Reclamation may, at any time and at no cost or liability to the United States, terminate any use authorization for activities other than existing authorized private

exclusive recreational or residential use as defined under 43 CFR § 429.2 if Reclamation determines that any of the following apply:

- (i) The use has become incompatible with authorized Project purposes, Project operations, safety, and security;
- (ii) A higher public use is identified through a public process described at 43 CFR § 429.32(a)(1); or
- (iii) Termination is necessary for operational needs of the Project.

g. Reclamation may, at any time and at no cost or liability to the United States, terminate any use authorization if Reclamation determines that the Licensee has failed to use the use authorization for its intended purpose. Further, failure to construct within the timeframe specified in the terms of the use authorization may constitute a presumption of abandonment of the requested use and cause termination of the use authorization.

h. Reclamation may, at any time and at no cost or liability to the United States, terminate any use authorization if the Licensee fails to comply with all applicable Federal, State, and local laws, regulations, ordinances, or terms and conditions of any use authorization, or to obtain any required permits or authorizations.

The notices provided by this article will be served to the respective post office addresses and as provided in Article 11 (Notices). If the termination under Article 10(b) or Article 10(c) should be effective at a date prior to the date of the termination of the then current License or extension, for which prepayment of rental will have been made, an appropriate refund or part of the rental for such then current License or extension will be made.

If this License is terminated under Article 10(c), the United States reserves the right to bar the Licensee from the authorization to use acquired or withdrawn public land on the Teton Project for a period of time, as determined by the Area Manager.

11. Notices:

a. All notices required or desired to be given under this Agreement shall be in writing and may be delivered by personal delivery; via recognized delivery services such as United Parcel Service (UPS) or Federal Express (FedEx); or by deposit in the United States Mail, postage prepaid, as certified mail, return receipt requested, and addressed as follows:

Assistant Area Manager

b. Any notice delivered by personal delivery shall be deemed received by the addressee upon actual delivery. The addresses to which notices are to be delivered may be changed by giving notice of such change in accordance with this paragraph. This paragraph shall apply where notice is required under this License, and no specific requirements are set forth. Where this License provides for a specific notice in a different manner, the more specific requirements shall prevail.

c. The parties hereby designate the Assistant Area Manager for Reclamation and Conn Crapo for the Licensee, as their authorized representatives for this License. These individuals shall have authority to take any action allowed or required under this License, on behalf of their employer. The parties may change their designated representatives at any time by giving notice of such change in accordance with Article 11(a).

12. Upon the expiration, termination, or revocation of this License, if all rental charges and damage claims due Reclamation have been paid, the Licensee shall remove all structures, equipment, or other improvements made by it from the premises at no cost to the United States. Upon failure to remove any such improvements within sixty (60) days of expiration, termination, or revocation, any remaining improvements shall, at the option of the United States, be removed or become the property of the United States. The Licensee shall pay all expenses of the United States, or its assigns, related to removal of such improvements.

13. No Member of Congress shall be admitted to any share or part of any contract or agreement made, entered into, or accepted by or on behalf of the United States, or to any benefit to arise thereupon.

14. Each provision of this use authorization shall be interpreted in such a manner as to be valid under applicable law, but if any provision of this use authorization shall be deemed or determined by competent authority to be invalid or prohibited hereunder, such provision shall be ineffective and void only to the extent of such invalidity or prohibition, but shall not be deemed ineffective or invalid as to the remainder of such provision or any other remaining provisions, or of the use authorization as a whole.

IN WITNESS WHEREOF, the parties hereto have executed this License the day and year first above written.

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at <http://www.idwr.idaho.gov/>.

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- ☒ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.) Attachment #1 added for list of current officers of Teton Pipeline Association
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the transfer applicant as the current water right owner. Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☒ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm>.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
