CONDITIONS OF APPROVAL

1. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
2. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
3. Place of use is within the service area of the City of New Plymouth municipal water supply system as provided for under Idaho Law.
4. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
5. Rights 65-25, 65-26, 65-27, 65-7093, 65-12213, 65-13735 and 65-23263 when combined shall not exceed a total diversion rate of 3.45 cfs.
