Re: Application For Transfer in the name of Idaho Water Company, LLC

Dear Water Resource Agent,

Please find attached an application for transfer seeking a change in place of use and point of diversion for a portion of combined water rights 29-13885, 13887 & 13889 in addition to the entirety of water rights 29-14054, 29-14055, and 29-14056. I have specifically excluded that portion of water rights 29-13885, 13887 & 29-13889 associated with property owned by Chad Nielsen and have included a notarized release from Ryan Hancock who also owns property within the place of use for those water rights.

According to the ESPA Transfer Spreadsheet analysis (Attachment #5), all calculated changes to Snake River reach impacts resulting from the proposed transfer remain very close to the authorized impacts associated with the current well and should be approvable without mitigation.

I have also attached information received from the Bannock County Farm Service Agency showing the lands were placed into CRP in 1997 with contracts extending through 2014 and 2022 so forfeiture should not be an issue.

I believe Idaho Water Co. has submitted the check for the processing fees to the Southern Regional office. Please verify that check has been received. If you need any additional information in processing the transfer, please don't hesitate to contact me.

Thanks,

Jason C. Helms, P.E.
