RE: Transfer 78420

Dear Mike:

It was a pleasure speaking with you on the telephone today. As we discussed I am sending you a copy of an amended transfer application. This transfer application proposes to:

- Combine the place of use for water rights 74-746A, 74-746B, 74-15609, 74-15610, & 74-15611 and,
- Correct the point of diversion for water right 74-15611.

This amended application will require re-advertisement. Please sign and return with the \$50.00 re-advertisement fee.

If you have any questions, please let me know.

Thank you,

A handwritten signature in black ink, appearing to read 'Kerrie Mathews'.

RE: Transfer Application 78419 & 78420

Dear Mr. Kossler:

On April 22, 2013 I sent you a letter and maps regarding two proposed transfers the Department is reviewing (copies enclosed). The Department is continuing to hold these transfer application awaiting your response.

In order to continue processing the transfer applications please take a moment and let me know, "Should the ½ acre of irrigation under right 74-15611 actually be diverted from L-13 with the balance of the flood irrigation rights?"

If you have any questions, please let me know.

Thank you,

A handwritten signature in black ink, appearing to read 'Kerrie Mathews', with a long horizontal line extending to the right.

Dear Mr. Kossler:

It was a pleasure speaking with you over the telephone today. As we discussed I am sending you two maps. The first map shows the place of use and point of diversion for the water rights as they are NOW. The second map shows the water rights and points of diversion AFTER the transfer is completed.

The question I have, is the point of diversion for 74-15611 correct after the transfer is complete? Currently the point of diversion is L-13 and would not change based on the transfer applications. However, all of the water rights not used for Pivot operation are located at L-10.

Should this small ½ acre of irrigation (74-15611) actually be diverted from L-13 with the balance of the rights?

If you could let me know, I would appreciate it.

Thank you,

Kerrie Mathews
Sr. Water Resource Agent
