Sr. Water Resource Agent:

RE: Application for Water Rite from Shoo-fly Creek.

Hello:

#1 As of 3-26 -13 at the lowest part of flow for the year , approx 1.8 cfs is available . This is proven by pumps I am running on the silver project water rite # There is more than adequate water in the fall as the whole watershed drains from summer irrigation.

#2 Ted Cantrell who would be the senior water user to this new projected permit and I have discussed this project and I Chris Unruh have acknowledged his senior status, and would give him priority if he requests water at a low time.

3 I only have need of a consumptive use of at the most 1 acre foot on requested acres . I have a very adequate supply of water from the Bybee canal from when It starts around April 5 thro Oct 15. This is only a supplemental application request. The agent at Water Resource advised to just put down a full permit request , but it is not needed, and will change it if you desire.

I hope this answers your request at this time.

Sincerely,

Chris Unruh

Re: Applications for Permit No. 57-11838

Dear Mr. and Mrs. Unruh:

The application for permit referenced above has been assigned to me for processing. The application seeks a new water right from Shoofly Creek. The Department must have additional information before processing can continue.

Please provide credible information that there is sufficient water in Shoofly Creek for the proposed appropriation, and how the diversion will affect the senior right holder downstream. Also, although your application states that the reason for the new appropriation is to supplement Bybee canal water in the early and late irrigation season, the volume sought indicates that you would use the water for nearly the entire irrigation season. Please provide more information regarding when you intend to use the water.

The additional information is due in writing by April 22, 2013. Failure to submit the information may result in the application being voided. Fees are not refunded for voided applications. You may email the requested information to me at vicky.music@idwr.idaho.gov and call me at 208.334.2190 if you have questions. Thank you.

Sincerely,
