Jim,

We have received and assigned review of the lease to staff. It will be reviewed in turn as time allows and you will be contacted if any further information is required. You can track progress of applications you have an interest in by viewing the Water Supply Bank Processing spreadsheet on our public website under the Helpful Resources bar on the right side of the page at http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterSupply/ws_default.htm .

Let me know if I can be of any further assistance.

Pam

Pam,

How soon will this lease be accepted and approved? Thank you.

Jim

Pam,

You are correct. Thanks so much for working through this with us.

Jim

Jim,

To confirm what I see on the map you provided, the remaining unleased 36.8 acres authorized for irrigation will be located in the W1/2 of the NW of Section 26, T01S, R20E. The acres visibly irrigated where the arrow ends on the photo you provided. If you agree with my interpretation from the map, we will proceed with the lease including the condition identifying the specific location of the remaining unleased irrigated acres within the permissible place of use. An email response from you will be sufficient to document the file.

Thank you for your quick response to this issue of the lease review.

Pam,

After listening to your voice mail I prepared the attached map.
Does this answer your questions?
