Total number of acres to be irrigated: 264

- Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Water shares owned in the Deep Creek Irrigation company are used on the same land, along with some private water rights out of 2 mile canyon on some of the acres included. This well was drilled with intention of being a back up reserve to these systems and will be used as such.
- Who owns the property at the point of diversion? Applicant
 - Who owns the land to be irrigated or place of use? Applicant
 - If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
- Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This well was drilled in 1991, there was some confusion with the well driller and the applicant on the completion of the well, and so the original plan of development and beneficial use was delayed and the permit lapsed. Now we have come back to the well in a dry year with hopes of taking advantage of our original investment, the reserve well. We well cammed the well and everything looks good and finished, and water flows at a pretty good pace out the top of the well when uncapped. This shows us that the water in the well is good and if allowed, can be put to use as planned many years before. We hope to put this water to good use by controlling and distributing it effectively, as a reserve to existng systems.
- Time required for completion of works and application of water to proposed beneficial use is 2 years (minimum 1 year).
- MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

James,

Thank you for your help with this application and other water right questions. Just a reminder of our conversation about the newspaper ad, we would appreciate it if you would word it to indicate that this is an application on an existing well rather than a new development. We would like something that shows we are not doing this with a new well, we feel it is important and a somewhat unique situation. Again, thanks for all your work on our behalf.

Sincerely,

Logan Alder
