DEPARTMENT OF
WATER RESOURCESSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit no. 63-12217 Date proof is due MAY 1, 2011
 Name(s) of permit holder(s) Michael G & Kathleen L. Brady
 Mailing address 13660 N. McFarland Creek Rd. City Boise State ID Zip 83714
 Telephone no. 208 890-8400 Email ccrandh@ctweb.net

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

The well has been drilled and a "new plan" is being developed by Valley Pump & Equipment and NRCS see attached (previous Request for Extension of Time & attachments and letter from permit holder

Costing \$ _____

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

JTS (designer / provider of original system) was unable to complete work as specified. Permit holder "Brady" has engaged a new provider to redesign and complete project. Permit holder "Brady" is also working with NRCS to complete design and
 Permit holder(s) request an extension for 5 year(s). system.

Signature (If other than permit holder, Power of Attorney must be supplied)

Date

4/23/13

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Department has reviewed the explanation for delay and concludes the reason(s) for delay meets the requirements for approval of the Request for Extension of Time as provided by Section(s) 42-204 and/or 42-218, Idaho Code.

☐ **IT IS HEREBY ORDERED** that the permit is **REINSTATED** with the priority date advanced to _____, 20____.

☒ **IT IS HEREBY ORDERED** that the above request for extension of time is **APPROVED**, and the time within which to submit proof of beneficial use is extended to May 01, 2018.

Signed this 21st day of May, 2013

Re: Permit No. 63-12217
Request for Extension of Time

Dear Ms. Block:

Please find enclosed our Request for Extension of Time; our file already contains our previous Request for Extension of Time along with our well drillers report and a previous history of this project.

When it became clear that JTS, our previous provider of service for this project, was unable or unwilling to complete the project in a timely fashion, we (the "Bradys") engaged the services of Valley Pump & Equipment of Emmett, Idaho; Bill Baxter is the representative that we have been working with to create a new engineered plan to complete the water conveyance system that will service the property detailed in this Permit No. 63-12217. The Bradys have also been working with the Natural Resource Conservation Service ("NRCS") to develop the engineer plan and practice for the water conveyance on the land detailed in the Permit No. 63-12217. Both Valley Pump & Equipment, Mr. Baxter, and representatives of the NRCS have met with the Bradys on site to develop the water conveyance system.

The Bradys have applied with NRCS for an EQUIP grant and EQUIP Organic Initiative grant to further the best conservation and water delivery practices on the subject property, which grants should be awarded shortly.

Natural Resource Conservation Service James Eller District Conservationist Caldwell Field Office (208) 454-8684 x 130 Erin Brooks Soil Conservationist Caldwell Field Office (208) 454-8684 x 127	We are working with the NRCS (Erin Brooks and James Eller) as far as providing us with an engineered plan and practice. We have also applied for an EQUIP and EQUIP Organic Initiative grants and a Waiver in order to commence work prior to the award. Bradys have spoken to Jeff Eller and he requests that you call him regarding this "Request for Extension of Time" if necessary.
Valley Pump & Equipment Bill Baxter 608 Washington Avenue Emmett, Idaho 83617 (208) 365-2972	Valley Pump and Equipment was engaged by Bradys after it became clear that JTS was not able to perform and complete our job in a timely manner. Valley Pump & Equipment has provided several engineered plans that are being considered revised by NRCS to meet their specifications. You may contact Bill Baxter of Valley Pump & Equipment to verify. Valley Pump & Equipment is able to begin the project as soon as the NRCS awards are made. Bradys will go forward with plan regardless of award or no award being made to Bradys.

James Eller of the NRCS has requested if you have questions of him regarding this process to please do call him at the number provided. Further, you may also contact Bill Baxter of Valley Pump & Equipment for additional detail.

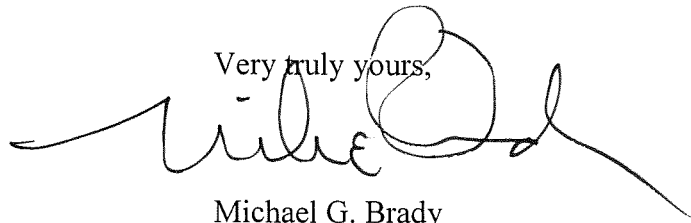

Additionally, while we asking for the five year extension of time, we intend to start construction on the water conveyance system as soon as the EQUIP and EQUIP Organic Initiative grants have been awarded in June 2013. However, commencement of the work is not dependent on the award of the grants. We are merely waiting for the grant award because any work started or completed prior to the award of the grants is not covered by the grant. If no grant

is awarded, we will still commence construction of the water conveyance system in June 2013,
or as soon thereafter as Valley Pump & Equipment can commence the project.

If you have any additional questions or concerns, please call (208) 890-8400.

Very truly yours,
