MEMORANDUM

Date: May 7, 2013
To: Transfer 78517 File
From: William Mills
Re: Evaluation of Sufficiency of Information Submitted

Application proposes changing the legal description for the place of use and point of diversion for domestic & stockwater ground water right 37-10667, which apparently was decreed in the wrong quarter-quarter section. The corrected place of use and points of diversion are recorded as Twp 01N Rge 18E Sec 2 of the NWNE1/4. The currently recorded place of use and point of diversion are in the SWNE1/4 of Twp 01N Rge 18E Sec 2. The corrected point of diversion and place of use are located approximately 0.6 miles west and 0.9 miles south of the intersection of Hwy 75 and Elm St. in Bellevue.

A letter of intent was mailed to property owners in the SWNE1/4 of Twp 01N Rge 18E Sec 2, informing them of the intent to correct the legal description on the water right. Two of the three property owners responded indicating they had no objections to the transfer and there was no response from the third.

This right is utilized on two adjacent taxlot parcels within the same 40 acre tract. According to Michelle Davis, the stockwater use is on parcel no. RP01N18002039C and domestic use is on parcel no. RP01N18002040I. This was noted in conditions on the transfer and is reflected in the shapefiles in ArcMap.

Overlap review indicates there are no other domestic & stockwater rights appurtenant to the properties owned by the applicants. They do own a ground water irrigation right, 37-7234, diverted from a separate well in the NENE1/4 that is used to irrigate both taxlot parcels involved in this transfer.

Applicants provided 6 separate ownership documents, 4 of which are for taxlot no. RP01N18002040I. The most recent (Instrument #565176) concerning that parcel, indicated that Mark A. & Dianne M. Metcalf, and Michelle Davis are co-owners of the property. The Taxlot layer in ArcMap lists Mark A. & Dianne M. Metcalf as the current owners. The Blaine County Assessor's office indicated that the most recent deed (Instrument #565176) is correct and is the most recent ownership document.

Since the application only seeks to correct the location where the water right has always been diverted and used, and there is no actual hydrologic change, the transfer was processed, and can be approved without advertising

- **Authority to File:**
IDWR records indicate the applicant currently owns the water right and lands the right is being transferred to.
- **Water Right Validity:**
Water right 37-10667 was decreed in the SRBA on 1/05/2001. Home site and irrigated lot are visible in 2011 aerial imagery and 2010 satellite imagery.
- **Injury to Other Water Rights:**
None anticipated.

- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water.
- **Effect on the Economy of the Local Area:**
None Anticipated.
- **Effect on Agricultural Base of the Local Economy:**
None Anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Response from Christie Haugh

I received a call from Ms. Christy Haugh in response to the letter of intent that was mailed to her concerning this transfer. She did indicate that she had an irrigation well located in the same QQ where the POD was decreed and wanted to verify that this transfer wouldn't affect her water right, 37-7745D. I verified that this was only a paper work change seeking to correct the POD and that it would have no impact on her well or water use in that QQ. She then stated that she had no concerns regarding the approval of this transfer.

Dear Ms. Haugh,

The Idaho Department of Water Resources has recently received an application for transfer intending to modify a domestic and stockwater right, 37-10667, currently owned by Melvin L. & Arminda Metcalf. There is a pending change of ownership filed with the Department transferring ownership to Mark & Dianne Metcalf and Michelle Davis. The transfer application seeks to correct the recorded location of this water right as it appears there is an inconsistency between the described elements of the water right and the actual physical location where the right is diverted and used. The right is currently recorded in Twp 01N, Rge 18E, Sec. 2 SWNE1/4, which according to taxlot records is property that may be currently owned by the following parties: John D. Mills; H. Allen & Leslie Luray; and Christie Anne Haugh. The transfer, if approved, will place the water right on a developed property owned by Mark & Dianne Metcalf and Michelle Davis in Twp 01N, Rge 18E, Sec. 2 NWNE1/4.

The purpose of this letter is simply to inform you of the intent of the pending water right owners to change the location of this water right to correct the potential discrepancy between the recorded location and physical place of use of this water right. If you have questions or concerns regarding this application for transfer for water right 37-10667, please contact me by letter, phone (208) 736-3033, or email at william.mills@idwr.idaho.gov. If no response is received within 14 days of the date of this letter, it will be assumed you have no concerns regarding the processing of this transfer application.

Subject: Re: Transfer Application

Hi Bill,

I do consent to having Michelle Davis as part owner of the water rights. I will let her know that a signature page is on the way. Thank you for your help in this matter.

Dear Mr. Metcalf,

Your application for transfer has been received and receipted. I have attached a copy of the receipt to this email.

According to the Deeds you provided and the Blaine County Assessor's office, Michelle Davis is part owner of the property involved in this application for transfer. If this is indeed the case, I will need to add her to the application and the water right, and acquire her signature on the application. Since you filed the application, could you please provide me with an email indicating your consent to add her to the transfer application. Once I receive that, I'll send her a signature page and will handle the rest of the details required to process this transfer.

Thank you for your time and patience,

Sincerely,

Bill Mills

Dear Mr. Mills,

You have requested from me a grant deed to show transfer of water rights ownership, 37-10667, from Mel and Armida Metcalf into my name, Mark Metcalf, Dianne Metcalf, and Michelle Davis. I have included a series of grant deeds for the property at 62 Townsend Gulch Road, Bellevue, Idaho 83313, to show the transfer of ownership. It may be overkill, but I hope that you have all the information that you need to complete the application. If it is not adequate, please do NOT mail the application back to me. I would prefer a phone call to discuss any problems with the application, so that we can proceed without further delay. My cell phone number is 253-279-2386. Please feel free to call me anytime between 8 AM and 6 PM Pacific Time.

I have included a check for \$225.00 for the filing fee. Again if you have any questions or concerns, please call me at 253-279-2386.

Thank you,
