RE: Change of Ownership for Water Rights 29-13886 (Split into 29-13886 and 29-14054), 29-13888 (Split into 29-13888 and 29-14055) and 29-13890 (Split into 29-13890 & 29-14056)

Dear Water Right Holder:

It has come to our attention that there was an error in the processing of the ownership change mentioned above. On December 31, 2012 the department completed your change of ownership application. However there was an error in division of the water rights. Please find attached a revised copy of the proof reports, showing the changes the department has made.

Your portion of the water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg
Technical Records Specialist
