RE: Assignment of Permit 63-33376—Wavier of Notary Signature

The attached assignment of permit application was received Friday 05/03/13 close to 5:00 PM. There was some confusion on what was required from the applicant. Due to the late hour and no regional staff with notary qualifications available, I accepted the application without a notary signature. The applicant (Mr. Harmon) presented his identification card proving his identity to receptionist Justin Allen and me.
