Re: Application for Permit No. 63-33760

Dear Mr. Pecht:

You recently filed the above referenced application for a supplemental irrigation well and asked that it be expedited. I sent you an email reply yesterday and am following up with this letter.

Your application can be expedited to at least publish the required legal notice in the *Press Tribune*. Notices will be published May 16 and 23. The protest period will end June 3. Assuming no protests, the application could be approvable if you provide adequate additional information.

Your application is for a significant flow rate, 3.96 cfs. Numerous domestic wells and other wells are found around the proposed new well location (see enclosed map). Please provide the following information for IDWR to fully evaluate your application pursuant to statutory requirements and IDWR Water Appropriation Rules.

Water Requirements and Water Supply – Estimate the total annual volume likely needed for supplemental irrigation. This is obviously highly variable over time but at least identify a somewhat likely volume needed for your intended crops in a dry year such as this one. Also show the aquifer can provide the flow rate and estimated volume you seek.

Impact and Injury – Demonstrate likely impacts on wells within about a one mile radius from your proposed well location. Discuss whether any likely impacts will injure senior ground water rights, including any domestic wells in that radius.

This will require information from a qualified technical expert. A consultant list is enclosed for your convenience.

Please submit the requested information for application processing to continue. You may seek additional time to provide the information. A withdrawal for is enclosed if you decide not to pursue this application. A refund can be issued for an application withdrawn prior to publication of legal notices. The application will be voided without a timely written reply within the next sixty (60) days. Refunds are not issued for voided applications.

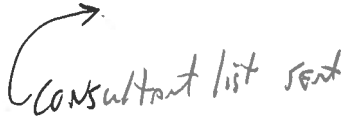

Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

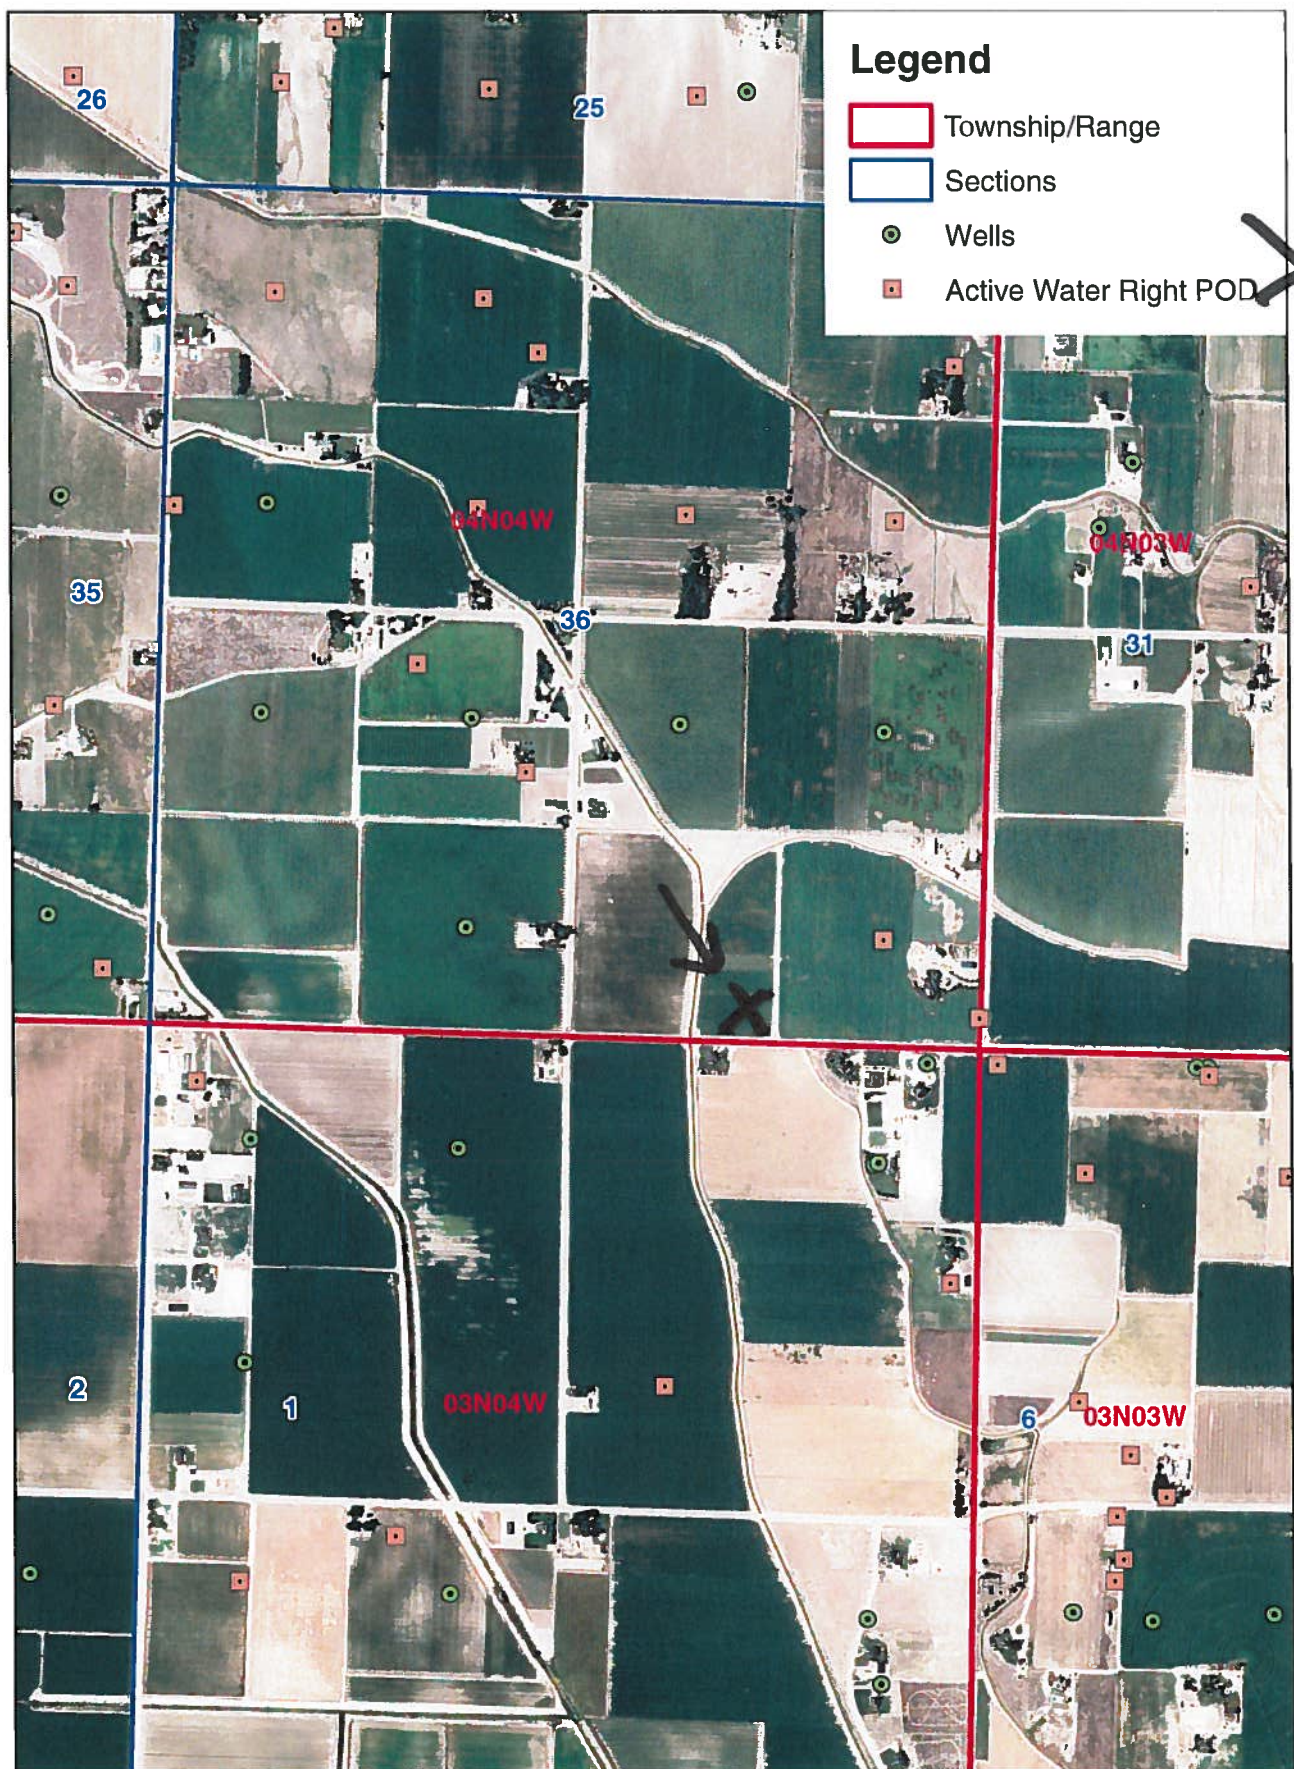

Steve Lester

Mr. Pecht:

You recently filed this application for a supplemental irrigation well and requested it be expedited. Due to this dry year, we are trying to accommodate these requests whenever possible. We will expedite the application to get the legal notices published in the *Press-Tribune* May 16 and May 23. This will determine if any protest are filed. Most applications are not protested.

However, we cannot issue a decision on your application until additional information is provided regarding the available ground water supply and potential injury issues to other wells in your area. I will send a letter requesting this information and will include some other items you might find helpful in this regard. That will allow you to work on the information while the legal notices process is underway.

Please contact me if you have any questions. Thank you.
