Re: Application for Permit No. 63-33768

Dear Lori:

The above referenced application for a supplemental irrigation well will be expedited as requested. Additional information is needed before the department decision can be issued for this application.

The applicant proposes 2.90 cfs from a new well in an area of numerous domestic and non-domestic wells. Also, the new well will be located close to a major irrigation canal used by one or more irrigation delivery organizations. Please respond to the following points.

Water Supply – Provide information showing a sustainable supply is available from the aquifer. This should include a reasonable estimate of the annual volume most likely needed based on historic patterns and projected crop requirements (recognizing that supplemental use is highly variable by definition).

Injury to Other Wells – Provide information evaluating likely impacts to nearby wells based on projected flow rates and annual volume for this project. The analysis should discuss likely distances at which impacts will become insignificant.

Injury to Canal(s) – Demonstrate why the well location and rate/volume to be diverted will not interfere with surface water deliveries in the nearby canal(s). This could but does not have to include a letter of support from any irrigation delivery organization serving the area in question.

Please submit the requested information for application processing to continue. The applicant may seek additional time to provide the information. A response must be received within sixty (60) days. The

Subject: Application for Permit

Dear Steve,

Enclosed on behalf of Jerome Wanders, is an *Application for Permit* proposing a new well for supplemental irrigation. The proposed place of use is currently planted in potatoes. Surface water supplies are expected to be limited and curtailed early in the irrigation season. Supplemental ground water will be critical for this year's crop. Mr. Wanders requests and would be extremely grateful for expedited application processing. If there is anything further that you need, please contact us as soon as possible.

Check No. 5727 for \$330 is enclosed for the filing fee. Thank you very much for your consideration and assistance in this matter.

Sincerely,

Lori Graves
Water Rights Specialist
