Thanks Cindy. I am copying Darla so she's aware of what's going on.

Shelley – Paul Isaacson has contacted North Snake GWD and will pay the bill for mitigation as soon as she gets it to him. When I get the documentation of payment and inclusion I will forward it to you.

Cindy,

Sounds great. Thank you for following up for me.

Joyce with NSG phoned back – evidently the cemetery district called last year and wanted to “update their address” but never formally petitioned for membership. Joyce probably should have just billed them at that time but she didn't.

She is going to put together their initial assessment and send it to them today. It will include mitigation charges for the past three years. Concurrently we could send them some correspondence directing them that if the assessment is not paid asap, IDWR will not accept their proof filing, or we could just wait and see what happens....?

If they do pay the assessment right away, I don't think we should get too hung up on mitigation “prior to diversion under this permit”. Three years of back assessments does predate the permit approval.
