Subject: Wendell Cemetery Permit #36-8242

Cindy,

On April 4, 2013, you sent Shelley an email stating that Paul Isaacson had contacted North Snake GWD and would pay the bill for mitigation. You stated that you would forward the mitigation plan to Shelley when you get the documentation of payment.

We received the proof statement on March 14, 2013, before the proof due date of April 01, 2013. However I gave them (30) days from the date of my letter which ends today. In my letter I quoted permit condition no. 7 which reads:

“ Prior to any diversion and use of water under this water right, the right holder shall (1) provide evidence of participation in a mitigation plan, approved by the director, and administered by a ground water district or other recognized organization, or (2) provide individual mitigation approved by the director.”

36-8242.pdf

Attached is a copy of the letter I sent Wendell Cemetery on April 1, 2013.

Could you please check on this and see what might be taking so long? If the department could get a copy of the mitigation plan, then the proof statement would be ready to process. This is the only hold up.

Thanks,
Darla
