RE: Water Right Permit No. 73-12146

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The permit describes the place of use as T13N R23E Section 19 NESE. The pond is located partly within this quarter quarter. However, the pond place of use also falls within the SESE quarter quarter of Section 19. This is an element of the water right that has been developed differently than described on your permit.

Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at (208) 287-4879

Sincerely,

A handwritten signature in cursive script, appearing to read 'Sandra Thiel'.
