Craig,

I would say the point of diversion for the spring domestic supply is more underneath Home Lake, where the other red rectangles are located on your map, either right on the edge of the lake near the one rectangle, or under the lake, near the other. Does that clarify the matter?

Hey Steve,

Thanks again for taking a look at this. I tried to explain my question in the map below. Sorry about the confusion when I called earlier.

Let me know if you have any questions.
