Applicant in the above referenced matter of their Protest to Application for Permit No. 63-33742
filed by Blackrock Subdivision Homeowners Association, Inc.

Protestant has a direct and substantial interest in this proceeding in that the permit
application proposes the diversion of groundwater within an area and water bearing zone from

local public interest as defined in Idaho Code Section 42-202B; the proposed permit may injure the water rights held by Protestant; and the proposed permit may be contrary to the conservation of water resources within the state of Idaho. Protestant is also concerned that the application may violate Meridian city ordinances, development agreements that Applicant may have entered into with Protestant, or development conditions to which Applicant may be subject. Finally, Protestant desires to ensure that the well construction standards imposed on Applicant are sufficient to protect area groundwater resources from contamination.

Protestant proposes that, should IDWR or the parties determine that all or any portion of the permit proposed pursuant to the above-captioned application be limited or denied to meet the requirements of I.C. §42-203A and/or other concerns raised by Protestant, such limitations be imposed and/or such denials be issued.
