Dear Miss Jones,

We respectfully oppose approval of the transfer application no. 78393

because of the following reasons:

Water right no. 13-7869 (formerly water right no. 13-00752) shows a maximum diversion of 3.20 cfs with a priority date 1884 that right was split in half.

T. 11S R. 41E SEC. 20

1. NESW and NWSE = formerly belonging to George Bowels, NOW Robert Bowman

And

2. SESW and SWSE belongs to William Phil Hansen.

The 3.20 CFS was split equally between the two holders, being 1.60 CFS to each of them, not 1.80 CFS which Mr. Bowman is seeking.

The other water right NO. 13-7871 formerly water right NO. 13-00753 div. rate .400 CFS Priority Date of 1901 seems to be some what in order.

As the Water District 13-Q we are not that concerned with a transfer of place of use, but rather with total diversion rate, of right no. 13-7869 which should be 1.6 CFS not 1.8 CFS, as Mr. Bowman has placed a center pivot on the property and wants to adjust place of use and diversion rate.

Please contact me if you need further information.

Water Master
