Randy Pehrson
3754 W 4050 N
Moore, ID 83255

Dear Mr. Pehrson;

I am in the processing of completing the final review on transfer application 78059. During that review I was asked to contact you to provide further information.

Based on past recorded water use and historical imagery of the place of use, the Department is unable to determine if the water has been continuously used for the last five years. On November 6, 2012 the Department received a fax from Roger Trotten regarding the delivery of water to the property in question. However, the information was not specific enough to be acceptable. The watermaster for this District should be able to provide the details regarding the water that was delivered to this property in 2012.

In order to move forward with you application for transfer, please provide more specific information regarding water delivery or signed affidavits from neighbors who can verify the property was irrigated during the last five years.

Once I received the written statement, I can move forward. If you have any questions please let me know.

Thank you,

A handwritten signature in cursive script, appearing to read 'Kerrie'.
