RE: Draft Transfer Application

Dear Mr. Boyack:

Thank you for driving to Idaho Falls to meet with me and discuss your proposed transfer. I apologize that it has taken me so long to get this sent. Enclosed is a draft transfer application for you to review. Consistent with your instructions, this transfer will create a combined place of use for your water rights. It appears that you own a 2-acre split portion of water right 13-969A. Your three water rights (13-7632, 13-7634, and part of 13-969A) in combination authorize the irrigation of 69 acres. The shape we created when you were in the office was only for 67.5 acres. As you can see from the map, I added the drainage area in the southwest corner back into the proposed place of use.

The transfer application filing fee will be \$680. This is calculated based on the amount of water right actually being changed. The \$680 fee includes \$100 for the ownership change to split off a 2-acre portion of water right 13-969A. Because the transfer includes a change in point of diversion, it will need to be advertised in the local newspaper.

If the transfer application correctly describes the changes you would like to make to your water rights, please sign the application on behalf of the Boyack Living Trust and return the signed transfer application and filing fee (check made out to IDWR) to our office. We already have evidence of your authority to sign on behalf of the trust. We also have evidence of your ownership of most of the proposed place of use. Please send a copy of deeds showing your ownership of land in the NWSW and SWSW of Section 21. Feel free to keep a copy of the application for your records. We will begin processing the transfer as soon as it arrives.

Sincerely,

James Cefalo
Water Resources Program Manager

Subject: Location of irrigation pump on Bear river

James,

Here are the GPS coordinates for our point of diversion and pump on the Bear river.

N 42.18595, W 111.79890, $42^{\circ}11.157'$ $111^{\circ}47.934'$

Thank you James for all your help and study on correcting and ensuring our water rights are current and correct. If you have any questions ,please call. Thanks again

Bob Boyack
