

March 11, 2013

David, it was good to talk to you over the phone on Friday. Attached are the three scanned decrees and the draft memo that we briefly discussed. I look forward to getting your feedback on the memo.

Also, below is a list of items that we need in order to complete the transfer application and get the irrigation company rights in order.

1. Current company name and the officers of the company. If the company is returned to good standing with the Idaho Secretary of State's office, that information will probably be available to me via their website. As we discussed, copies of the bylaws and the annual meeting minutes would be very helpful.
2. Evidence of authority to sign on behalf of the company.
3. Evidence of water right ownership plus the additional fees needed to complete the ownership changes of the water rights diverted in Idaho.
4. Information regarding the diversion rate necessary for stockwater use during the non-irrigation season. A flow measurement would be great.
5. Clarification of the point(s) of diversion after you have discussed this with Lyle Steed, and a map illustrating all the Idaho points of diversion.
6. Basis for the 721 acres irrigated in Idaho.

Please feel free to call if you have question about any of this. Thanks for your help in getting this information.
