Importance: High

Doug/Nancy,

On 2/12/2013, I sent the attached cover letter, Application for Amendment, map indicating the place of use and point of diversion, and a map indicating the place of use that would require an additional application for permit to be submitted.

Could you please forward this amendment to whomever is in charge of signing the amendment, and paying the \$100 amendment fee? If I do not hear back within 2 weeks, this permit will be denied.

Good morning Sandy.

Mark Graves is the wildlife biologist that is in charge of that system. He should be able to help you out if not he can point you in the right direction.

Thanks,

Doug

Hi Doug,

I am currently conducting the licensing review for water right 85-15695, for Hells Gate Park. On 2/13/2013, an amendment was mailed to US Army Corps of Engineers at the address listed below. I received a voice mail from Nipaula (that's what her name sounded like) at (509)527-7150 wanting to know where my letter and amendment should go to. Do you know who would be in charge of receiving this document, and paying the \$100 amendment fee? Please let me know as soon as possible, so we can complete the licensing process for this water right.

Thank you again for all your help, since I really appreciate it.
