Subject: Permit No. 36-16928

Dear Ms. Block:

The Bureau of Reclamation requests that the requirement to install a measuring device be removed from the subject permit. Non-consumptive heat exchange for heating and cooling of an office building is the purpose of the permitted well.

It is my understanding that within Water District 130, metering of flow and total volume diverted is not required for non-irrigation systems with a diversion capacity of .24 cfs or less.

If you have any questions, please contact me at 208-678-0461 extension 27.

Sincerely,

Michael W. Beus
Acting Assistant Area Manager
