Re: Change in Water Right Ownership: Water Right No. 63-32919 (Split into 63-32919 and **63-33767**)

Dear Water Right Holder(s):

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Water Right No. 63-3589 was not changed. It is a parent right of water right 63-32919 and therefore is an inactive right. Because 63-3589 was not changed, a refund of \$100 has been requested and should arrive shortly. Also please note, Melissa is not listed as an owner on your water right. The warranty deed from BAC Home Loans conveys the property to Thomas as does the quitclaim deed from Melissa R Necela.

Your portion of this water right has a specified point of diversion, nature of use and place of use. **If you plan on changing the nature of use, place of use, point of diversion under this right, including adding or a new point of diversion, then an Application for Transfer on your portion of this right is required.** Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact me at 208-287-4942 if you have any questions concerning the enclosed information or this letter.

Sincerely,

Re: Change in Water Right Ownership: Water Right No. 63-32919 (Split into **63-32919** and 63-33767)

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, then the original water right number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new water right number reflects your remaining portion of the original water right, after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning this ownership change, or the enclosed information, please feel free to contact me at 208-287-4942.

Sincerely,
