This goes with that file 37-7846. What we already put in the file is sufficient, but I thought I would pass this along in case there was any question about the water right number that they requested the address change on.

Thanks,
c

Craig,
Good catch. The correct number is 37-7846.

Thanks,

Ernie

Ernie,

That should be sufficient. Just let me confirm that we really mean 37-7846. The subject line on this e-mail string has had it as 37-8746 for a while (I just changed it) but I am pretty sure that is just a typo.

Thanks,

c

Craig,

I received an email notifying me of a change in address for the permit holder of 37-8746, Robert Rosenthal which is waiting department review for licensing.

Is the attached email thread sufficient for the department to process a change of address for the permit holder or will we need to complete a change of address form?

Ernie

Ernie,

Can you make the address correction provided below by our client so that the license is issued with the correct current address? Thanks.

Jim

Jim,

I note that some documents still note the Rosenthal contact address as "1100 S. Glebe Road, Arlington, VA 22304" We vacated that building last July and have been since and will continue to be in a new office located at "1902 Association Drive, Reston, VA 20191" Can you please make sure we get this address change noted for any future matters? Thanks

Jerry H. Griffin, Esq.

Hello Craig,

Based on guidance from staff at Southern Region, I am sending you a signed Beneficial Use Field Report with several attachments which I hope will be satisfactory for issuing the water right license. Please notify me if the report should go to someone else.

You may recall discussing the issues with licensing this permit. With two wells, not connected and having different uses, two licenses may be in

order.

Also the domestic use is to include irrigation of 0.5 acre, with .87 acres to be included under an irrigation use. The reason for the division is to protect the 0.5 acre under domestic from curtailment under conjunctive administration.

Please contact me if you have questions

Ernie
