Conditions of Approval:

- R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 45F.
- 01R When notified by the Department, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
- WB7 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 225.6 af at the field headgate for the place of use.
- R60 This right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
- 104 If water right 45-512 is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert spring water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
- 065 The right holder shall make full beneficial use of 45-512 for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of spring water under this right to those times when 45-512 is not available or is not reasonably sufficient to irrigate the place of use authorized under this right.
- R55 This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
