Re: Lance Funk Rentals

Dear Mrs. Skaggs:

Transfer 78441 was submitted to IDWR to transfer 121.0 acre of irrigation water from property owned by Kip Hunter to property owned by Lance Funk. Transfer 78441 for 35-2824 was protested. It is desired that the 121.0 acres of Lance Funk on the NPVR farm be irrigated while the protests are worked out. Water right 35-2824 was leased and rented to Lance Funk during the 2012 irrigation season.

Attached to this letter is the lease application of 35-2824 signed by Kip Hunter. The lease application proposes to lease 35-2824 to the Water Supply Bank for two years. It is expected that the protests will be resolved and Transfer 78441 will be approved before second year of the lease begins. When the transfer is approved the lease of 35-2824 will be withdrawn from the Idaho Water Supply Bank.

The proposed rental will be for the 2013 irrigation season. There is an existing POD at the proposed place of use. The ESPA model analysis indicated that no mitigation is required for this one year rental.

Please contact me regarding any questions that you may have for this lease and rental application.

Sincerely,

Greg Sullivan, M.S.
