April 16, 2015

Good morning Renee,

You do not need to send a new extension request form. I can note on your original extension request form that you requested it be modified. You have already paid the proper filing fee, so all is good.

Thank you for your prompt response,

Darla Block

Re: Extension Request Filed on 01/07/2013 for Water Right Permit #85-15733

Thank you Darla for the information you provided for the Extension of Time filed for Permit # 85-15733.

I would like to request a 3 – year extension that will meet the initial (5) year development period allowed; ending in date - February 1, 2016. With this request I will then have the opportunity to file one more extension request later for up to (5) more years.

Do I need to send a new REQUEST FOR EXTENSION OF TIME form with the 3 year modification; ending in date – February 1, 2016? Also with this form, do I need to send a \$50.00 filing fee?

Sincerely;

Flying B Family Farms 1, LLC

Re: Extension Request Filed on 01/07/2013 for Water Right Permit #85-15733

Dear Permit Holder(s):

The Department is in receipt of your extension request form requesting a (5) year extension of time for submitting proof of beneficial use on the above referenced water right permit. You are allowed an initial (5) year development period according to Idaho code. After that initial 5 year development period, you are only allowed to file one request for extension of time for up to (5) more years.

Your permit referenced above allowed a (2) year development period which ended on February 1, 2013. If you were change or have changed the extension request you recently filed from a (5) year extension to a (3) year extension you would be meeting your initial (5) year development period allowed. You would then be able to file one more extension request later for up to (5) more years.

If you decide to leave your extension request as a (5) year extension, this will be considered your last extension request allowed because you will have gone past the initial (5) year development period on this extension.

If you would like your extension request form modified to reflect a (3) year extension now instead of the (5) years you requested, the department could only make that change with a response from you requesting that your extension request form be modified to reflect that.

Please respond with the extension end date you would prefer.

Sincerely,

Darla Block
