Jim,

I looked it over briefly. For Water Supply Bank purposes, I think we will need you to specify the number of acres (1.3) to be withdrawn and provide a map showing the location of those acres.

Thanks.

Allen,

Will the attached be sufficient for releasing the portion to be transferred under T.78397? If so, I'll get it signed. Then, where should I send it? Thanks.

Jim

Jim,

Attached is a process outline recently developed for processing transfers on rights that are being leased to the Water Supply Bank. As you know the Blaine County Recreation District's Right 37-2627D is currently leased to the bank and has three transfers filed for splitting this right up. Based on my review it appears that 3 of the 5 acres are currently rented leaving 2 not rented.

As you know transfer 78397 which involves 1.3 acres was advertised and not protested so I'm moving toward approval but according to the processing outline these 1.3 acres need to be removed from the bank.

There is a form that needs to be completed to accomplish this which is attached.

Please look these over and maybe we can discuss.

Allen
